The Stylists

Scandinavian

Once the domain of architects and high end designers, the secret of Scandi is out and it's now one of the most popular and easily achieved decors of them all!

It's functional, understated and organic and perfect for smaller spaces. Hand crafted textures and materials, and a light decorative touch, make it a calming and affordable delight.

Style Checklist

BATHROOMS

Go for tiles with light, cool grey and earthy tones and colour match the grout to the tile

For cabinetry use light timbers (or timber-look veneers) such as pine and oak

Design with light in mind so position mirrors to reflect existing light

Small elements of metal such as gold or copper tapware are Scandi-perfect

Style with towels in ether white or cool grey tones with minimal pattern

MAIN FLOOR TILE

Try wood look plank tiles in light hues – they emulate timber and are perfect for wet areas

Then use the same colour grout as your tile to avoid patterning

KITCHENS

Choose white, light greys and timbers for cabinetry

Use open shelving but don't have too much clutter on show (a couple of recipe books, drinking glasses and plates is fine)

Benchtops using marble or concrete are a great natural choice

FURNITURE AND FINISHING TOUCHES

Time to layer with woollen rugs, faux fur and neutral velvet finishes in similar colours

If you want some extra colour, opt for light pastel shades such as blue and/or blush

Keep ornaments to a minimum

Select functional furnishings in natural woods

Scandinavian MOOD BOARD - IDEAS TO INSPIRE YOU EVEN FURTHER

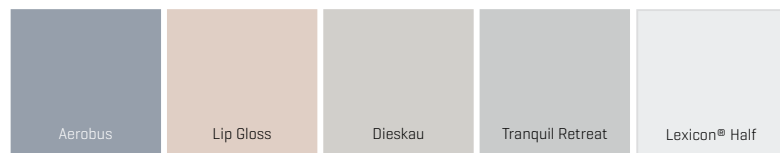

Tiles...

Trending is wood look tiles for floor and walls. Wood look is sensational in wet areas. In your bathroom, choose a light wood look tile for your floor and pair it with white penny round or 100x300 subways laid herringbone.

Colour tips...

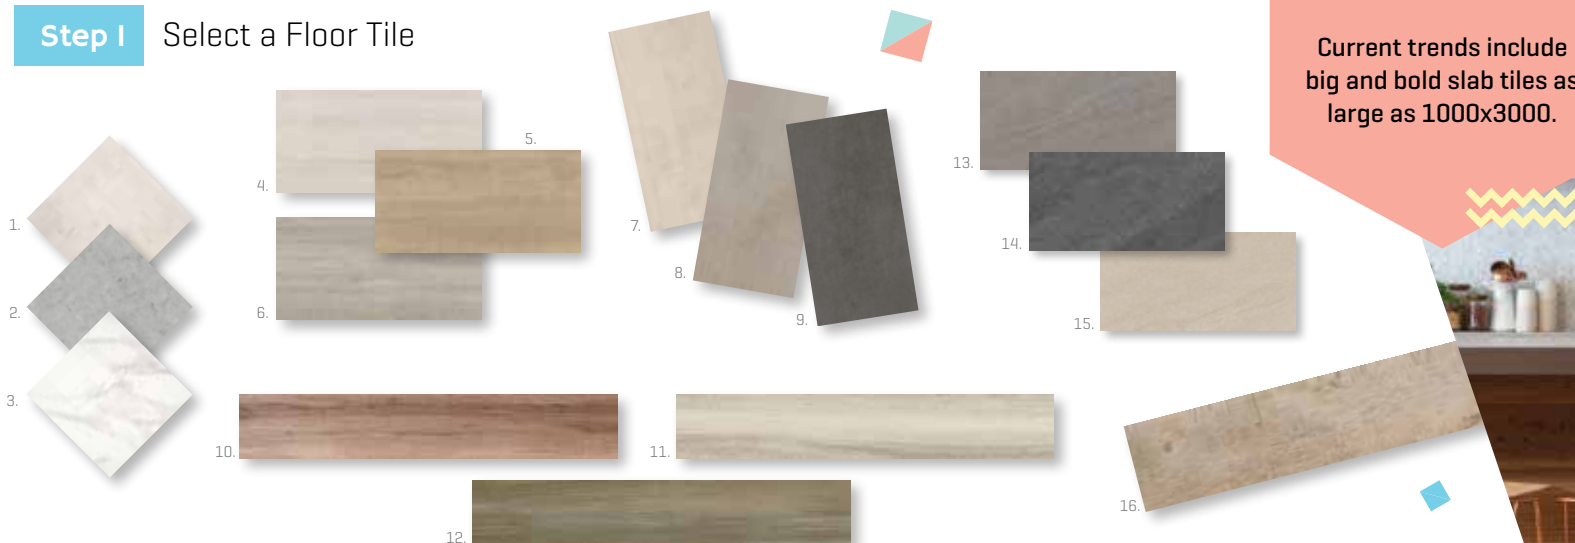

Your palette of choice is cool/warm/blue greys, white, pale pink, and natural, earthy tones. Avoid bright colours, rather focus on natural textures such as timber and marble.

The Stylists

Classic Traditional

Always warm and welcoming, this style is timeless and is inspired by high end trends from the past, reminiscent of a five star European classic hotel. It feels familiar and elegant and holds no surprises.

It's spacious, symmetrical and totally liveable. Finally, thankfully, I'm home.

Style Checklist

BATHROOMS

Choose a tuxedo-style palette. Its black and white hues are elegant and timeless
Or create a feature wall in textured tiles and frame it with understated floor tiles
Create a balanced space incorporating clean sharp lines with soft elements, like floor-to-ceiling sheer curtains, and indoor plants
Glam it up with gold taps or a feature claw foot bath in dramatic black and white

MAIN FLOOR TILE

You can use either light or dark tiles here so nail your interior colour scheme first

KITCHENS

Embrace white or light marble and accent with a natural hue
Choose timber look tiles (perfect for wet areas)
You can also mix tile patterns to add texture
Try a Herringbone tile floor with English Cross Bond tiles as a feature wall or splashback

FURNITURE AND FINISHING TOUCHES

Don't go overly ornate; use contemporary furniture with subtle classic details
Go for tactile fabrics and upholstery and layer with handpicked textiles like linen, velvet or other softer fabrics

Classic Traditional MOOD BOARD - IDEAS TO INSPIRE YOU EVEN FURTHER

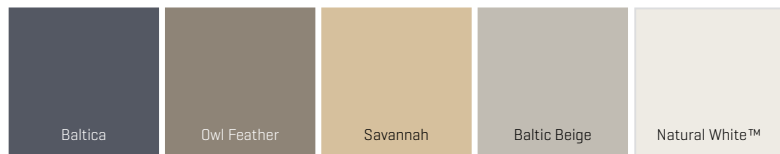

Tiles...

Your tile choices are broad – we're loving classic, subway, hexagonal and penny rounds. The trick here is to use them in similar hues to create depth but not too much variation.

Colour tips...

Tasteful neutrals give your home a weathered patina to stand the test of time. Inject some zing with light greys or unsaturated greens and mix, match and layer your designer furnishings.

Good choice...

Embrace classic geometric patterns; they never date and can give a brand new home that 'established' traditional and elegant aesthetic.

The Stylists

Urban Industrial

Hey You. Take me as I come with all my imperfections and exposed elements.

Urban industrial sees beauty in the raw, the overlooked and even neglected. It's functional and stylish with surfaces that are not traditional, often stripped back and even salvaged. Its character is utilitarian and certainly doesn't apologise.

Style Checklist

BATHROOMS

- Charcoal is the industrial colour of choice so lay large format dark floor tiles
- Team with brass or matt black fittings, old industrial light switches, lamps, and towel rails
- Timber cabinets inject warmth

MAIN FLOOR TILE

- Use dark, large format tiles or timber look planks with minimal detail

KITCHENS

- Select stainless steel or cement look splash-backs
- Use metallic light fixtures
- Go for white tiles with a contrasting grout

FURNITURE AND FINISHING TOUCHES

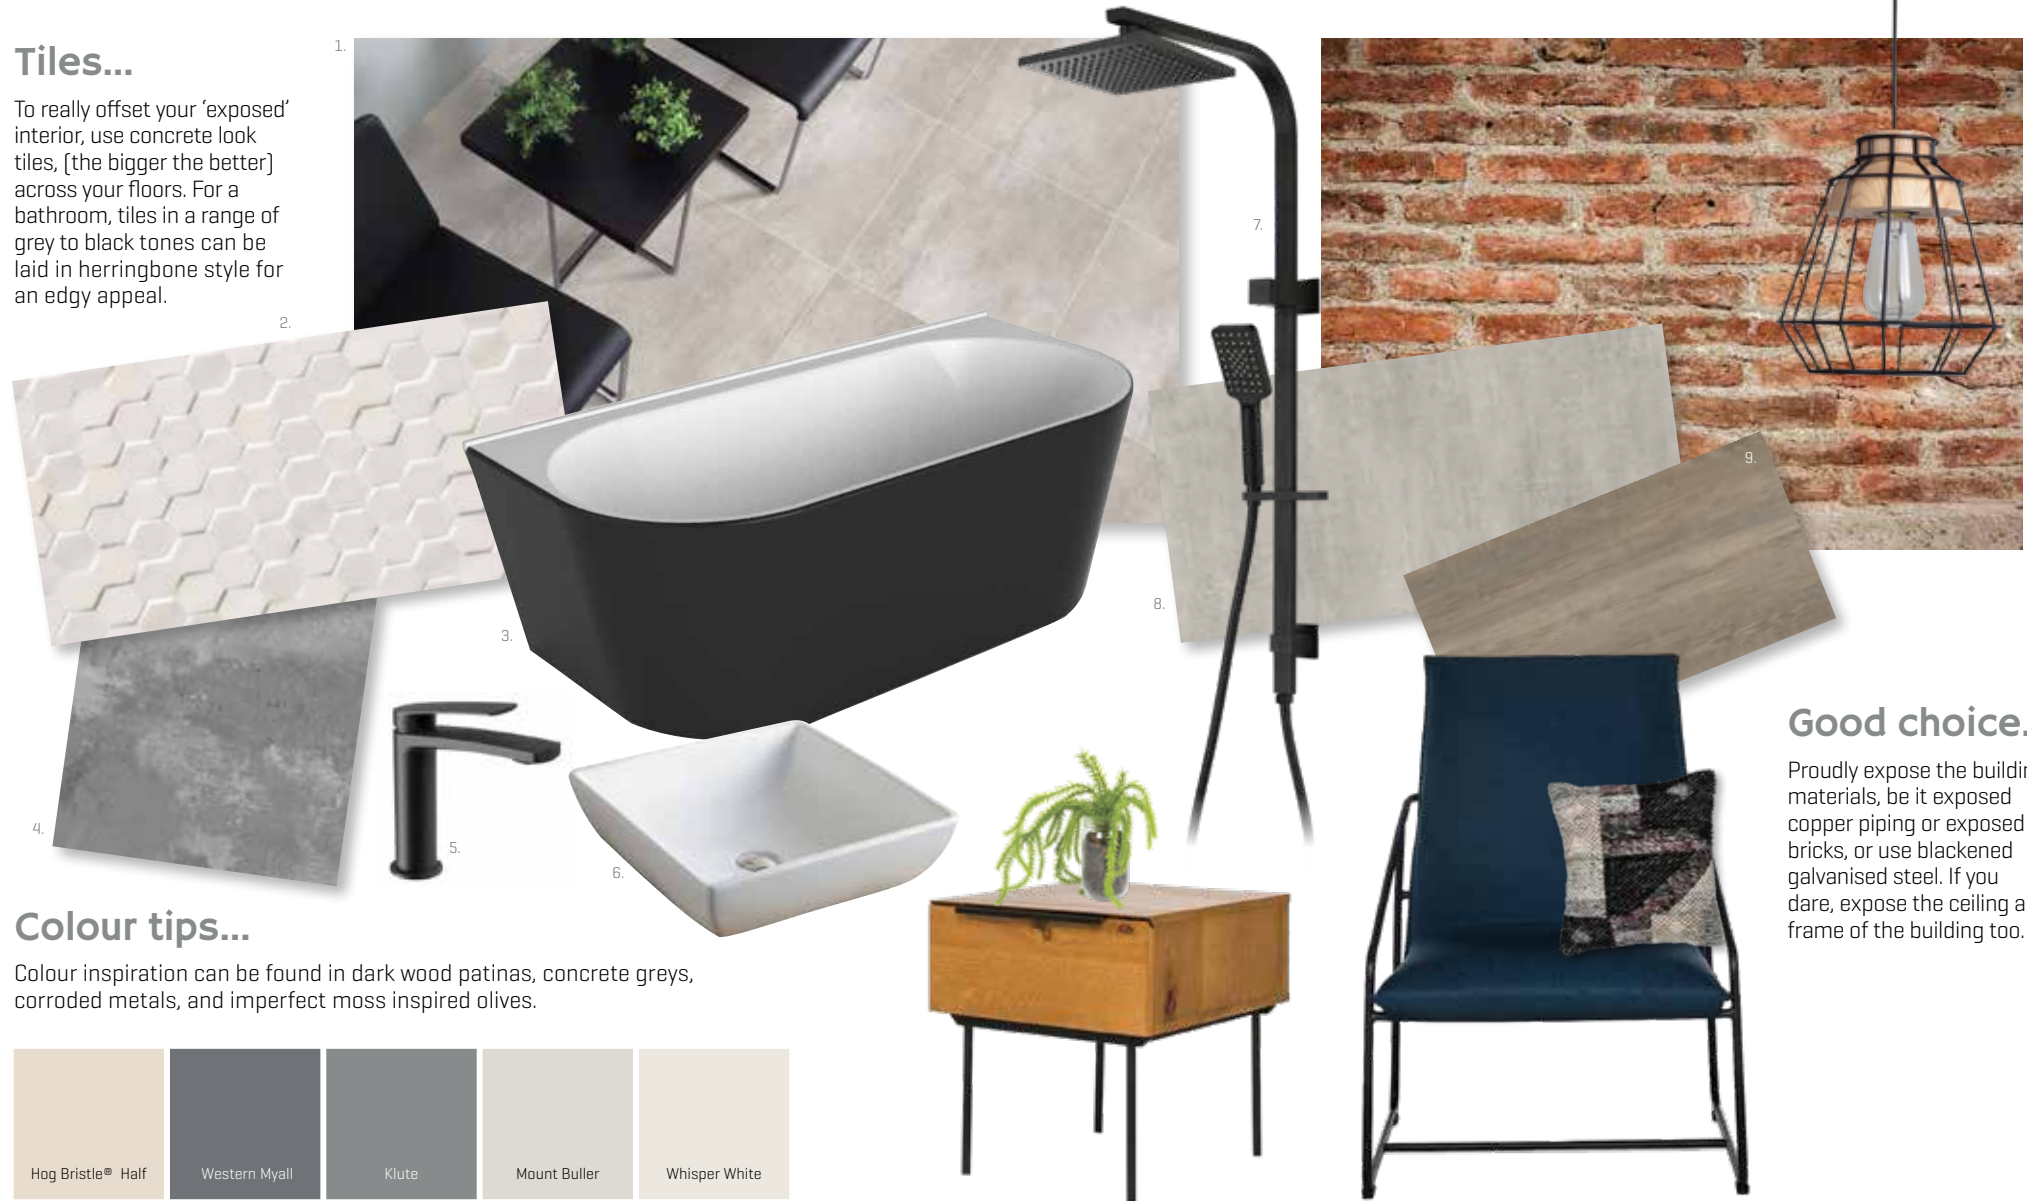

- Leather couches look great with this look

Urban Industrial MOOD BOARD - IDEAS TO INSPIRE YOU EVEN FURTHER

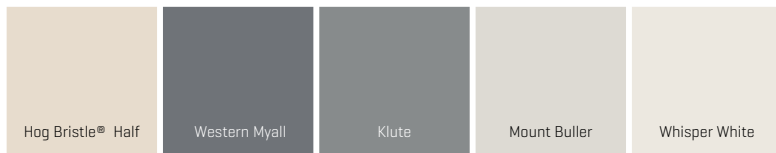

Tiles...

To really offset your 'exposed' interior, use concrete look tiles, [the bigger the better] across your floors. For a bathroom, tiles in a range of grey to black tones can be laid in herringbone style for an edgy appeal.

Colour tips...

Colour inspiration can be found in dark wood patinas, concrete greys, corroded metals, and imperfect moss inspired olives.

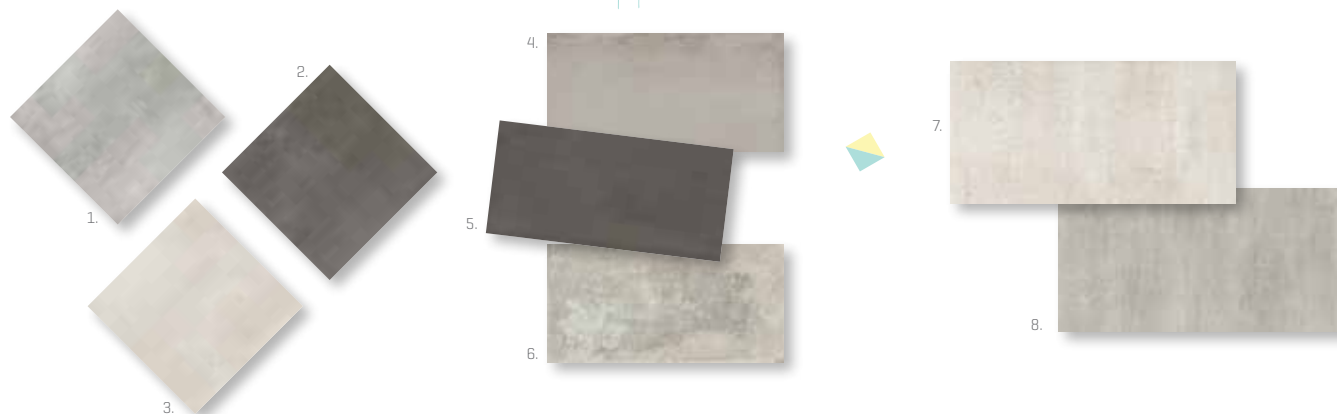

Good choice...

Proudly expose the building materials, be it exposed copper piping or exposed bricks, or use blackened galvanised steel. If you dare, expose the ceiling and frame of the building too.

SHANNON & SIMON

The Stylists

Modern

Life is busy. You're busy. The simplicity of a modern palette is the perfect panacea to a hectic schedule featuring a clutter free, largely neutral décor. Modern is restrained but bespoke when a bold splash of colour or dynamic forms are used. No need for loads of accessories or distracting patterns in your space.

Style Checklist

BATHROOMS

- Keep your space clutter free
- Be brave and select a hero tile like a 3D tile on the wall or a geometric floor tile
- Choose wall hung vanities and toilet to get a 'clean' look
- Then personalise your bathroom with a simple decor item or splash of greenery

MAIN FLOOR TILE

- You can't go wrong with really big 'show stopper' tiles
- Use the same tile throughout, even through to the outdoors, to create a spacious feel

KITCHENS

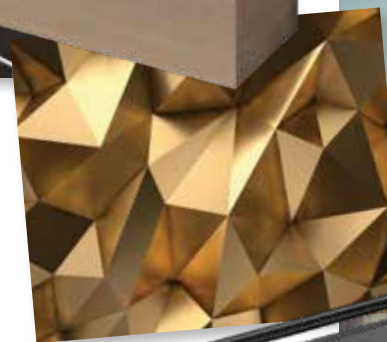

- Use only one or two colours for cabinetry and integrate appliances
- Top with light polished surfaces

FURNITURE AND FINISHING TOUCHES

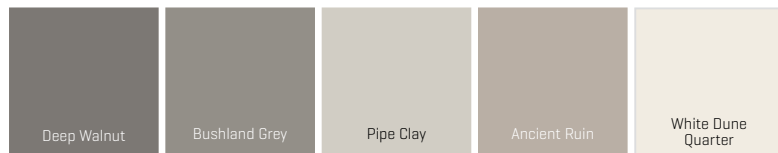

- Choose sleek low lying furniture and consider some plastics and glass
- Look for artwork that has similar tones to your overall colour scheme
- Finish with a larger than life pendant light

1.

Create a visual feast on your wall using 3D tiles and pare back your colour and styling elsewhere. On your floor, go seamless with large format tiles and match the colour of grout to your tile. Your room will look more spacious, calmer, and gorgeously modern.

Neutrals are modern's go to. Greys and whites are clean and create a calm ambience. Break the mould slightly with a dash of your colour of choice.

Create an impressive backdrop in your modern home whether it's a kitchen splash back, entrance portico or a stunning bathroom back wall.

Coastal

Childhood memories. Collections from the sea shore and beyond. Drift wood centrepieces.

Coastal is the enduring beach side retreat where city stress fades away in a heartbeat. It's bright and breezy and where nature takes centre stage.

Tip...
Tiles are an excellent allergy free flooring choice for bedrooms for people who suffer from allergies and asthma. The smoother the tile surface the less likely it is to attract allergens.

Style Checklist

BATHROOMS

Choose white baths and basins with soft curves and chrome or stainless steel tapware

Use natural and even textured tiles such as stone or stone look tiles, timber or concrete

Use grout that matches the tile colour

Make it even more spacious by running floor tiles all the way up the walls

Then style with timber or bamboo accessories (think stool, bath caddy and scrubbing brushes)

MAIN FLOOR TILE

Use timber look planks or large format tiles

KITCHENS

Choose a mixture of matt and natural finishes including timber and stone

Team with finger pull or simple handles

Go for open timber shelves to show off your seaside finds

Select a splashback in natural colours

FURNITURE AND FINISHING TOUCHES

Furnishings should be neutral or layer with shades of blue

Complement with artwork in similar hues (think prints of the ocean or sea life)

Use natural finishings such as sisal or jute rugs

Complete the look with free flowing plants like a string of pearl or hoya

The Stylists

Contemporary

Look around, there's sensory overload; sights, smells, sounds. Not in your home though. Here, less is so much more. In fact, what's not there is as telling as what is!

It is simple line and form and a deep appreciation of the very latest in man's design endeavours that makes this style supremely liveable.

Style Checklist

BATHROOMS

Stick to a dual colour palette and select up to three different tiles that work in harmony

Then run your tiles to the ceiling

If your room doesn't have much natural light, choose tiles from a light palette. If it's well lit, go dark

Use freestanding cabinetry and recess the toilet

Choose modern tapware in brushed nickel, pearl chrome, brass or matt black

MAIN FLOOR TILE

Select simple, smoother finishes like polished concrete, large tiles or wood look replicate tiles

KITCHENS

Keep lines clean with sharp corners, concealed hinges and squared handles

Be bold and dramatic with tile and marbled feature walls and splashbacks

Keep countertops clear and highlight with impressive chrome taps

FURNISHINGS & TOUCHES

Select simple, big and bold furniture

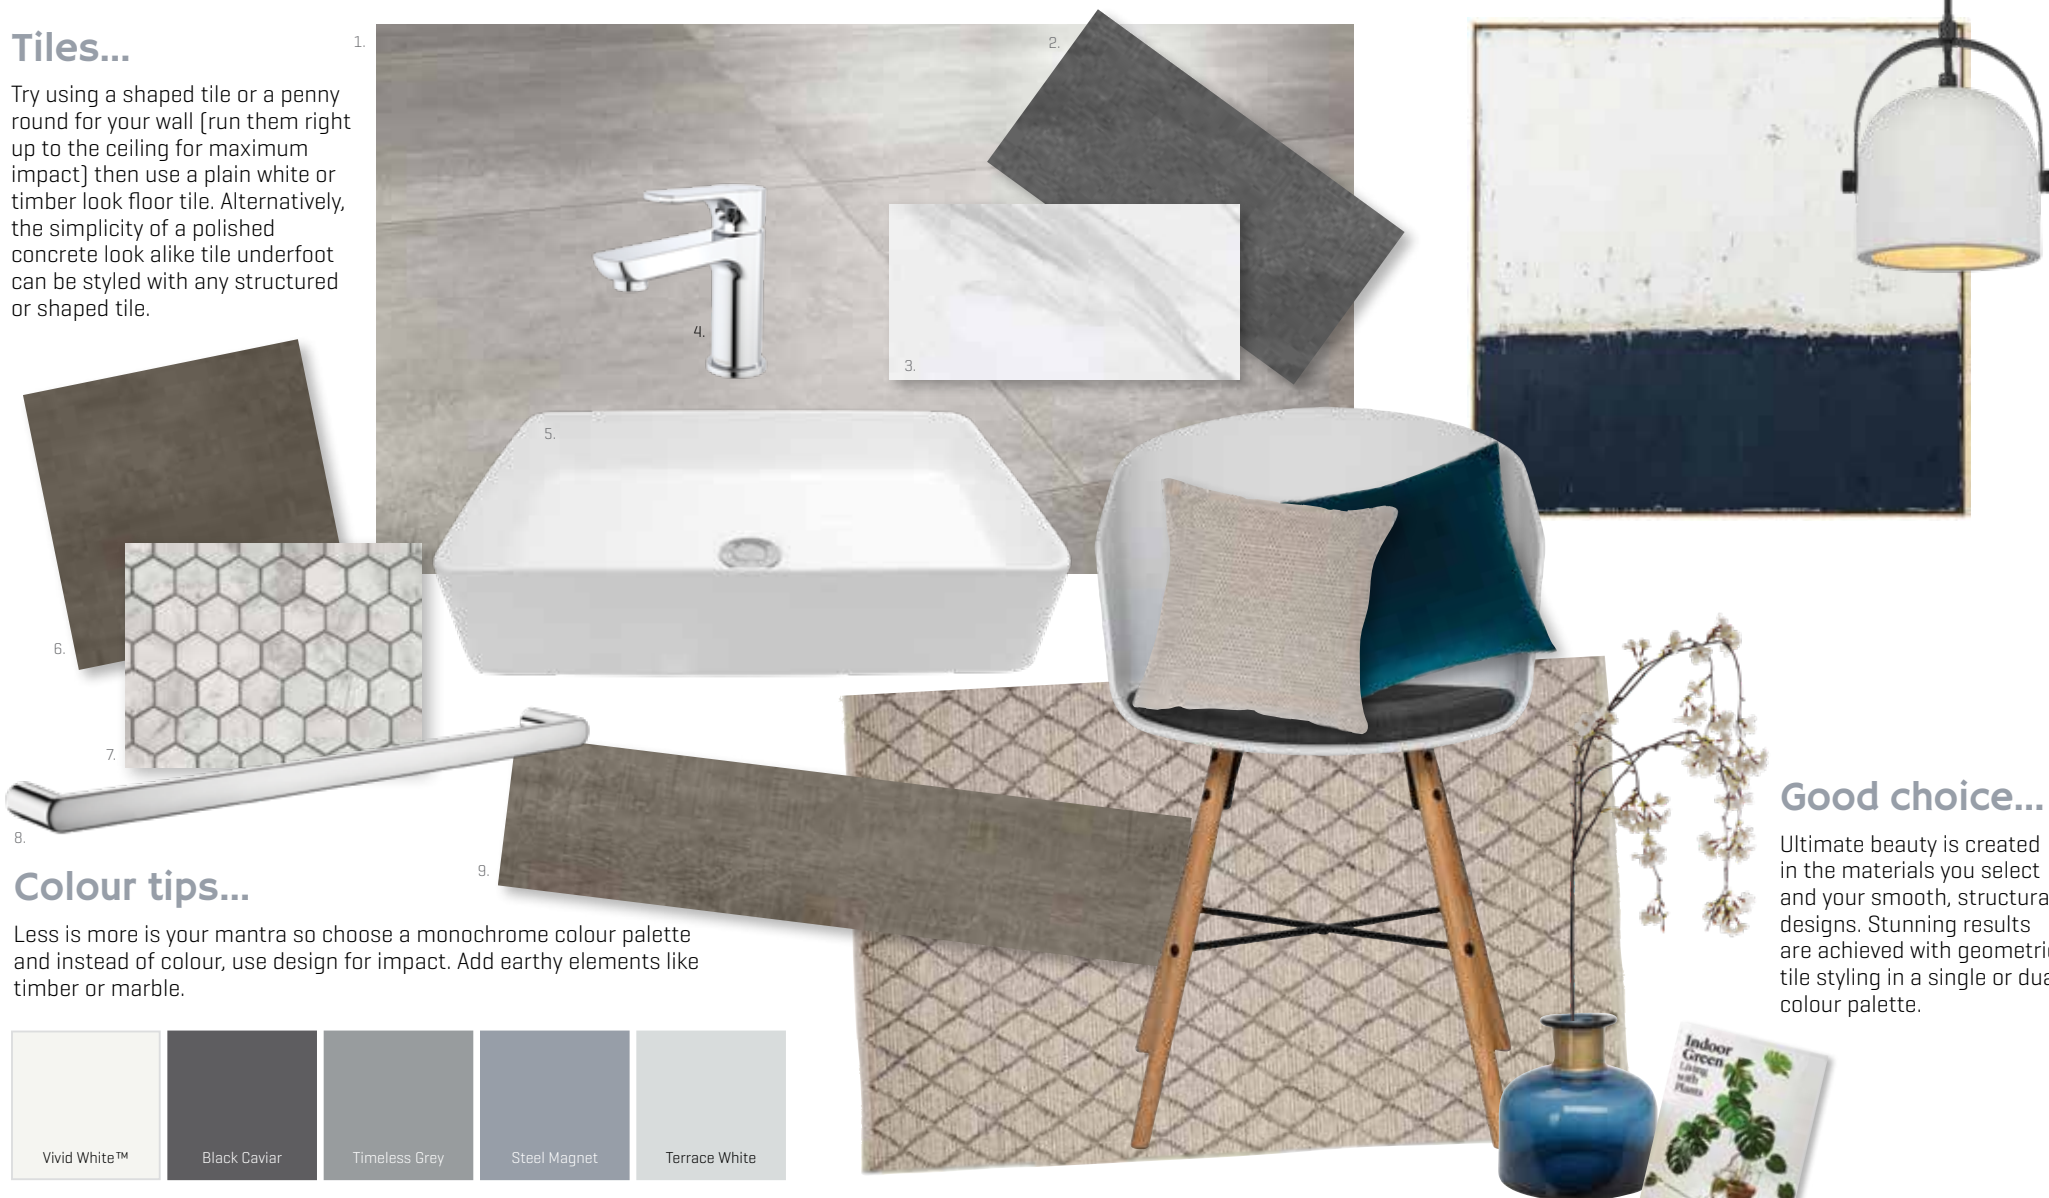

Floor to ceiling sheer curtains, feature pendants, and large indoor plants give dramatic impact

Contemporary MOOD BOARD - IDEAS TO INSPIRE YOU EVEN FURTHER

Tiles...

Try using a shaped tile or a penny round for your wall [run them right up to the ceiling for maximum impact] then use a plain white or timber look floor tile. Alternatively, the simplicity of a polished concrete look alike tile underfoot can be styled with any structured or shaped tile.

Colour tips...

Less is more is your mantra so choose a monochrome colour palette and instead of colour, use design for impact. Add earthy elements like timber or marble.

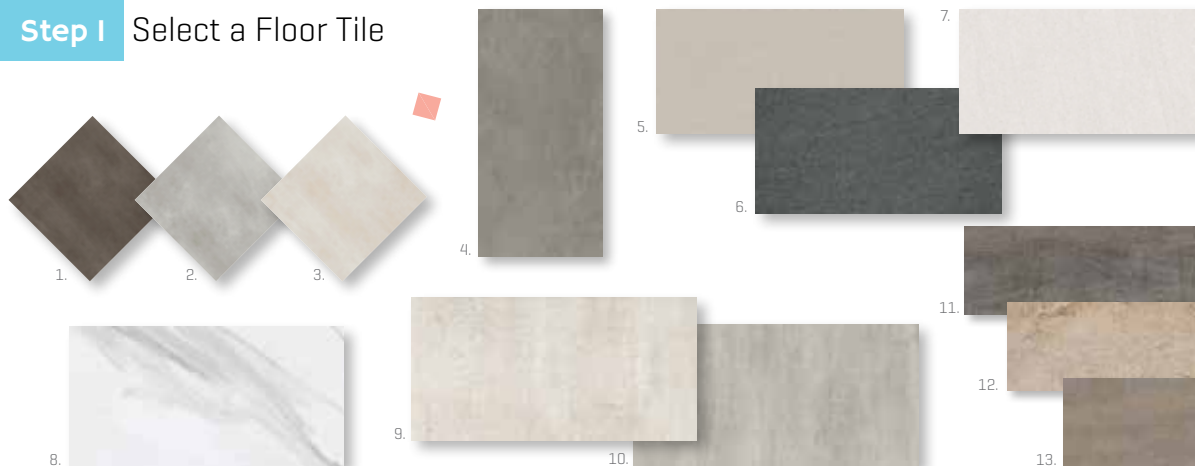

Good choice...

Ultimate beauty is created in the materials you select and your smooth, structural designs. Stunning results are achieved with geometric tile styling in a single or dual colour palette.

Retro Vintage

Twist, shake and shout - this is fun with loads of flair! A real nod to post war design - the 50's to 70's - where we threw off the shackles of austerity. A time of experimentation in art, gadgets, music and fashion. You'll give old-school themes a modern take. Take any handpicked feature, form or geometric shape to create a distinct impression.

Style Checklist

BATHROOMS

Pick a feature tile with a funky pattern and pair it with a contrast tile
Or stick with one bold tile choice
Dark cabinetry sits beautifully on a white wall with feature handles - chrome looks best
White tiles with a black grout gives retro flair
Then use plenty of greenery

MAIN FLOOR TILE

Choose a classic pattern in checkerboard, chevron or herringbone
Create contrast with a different colour grout

KITCHENS

Be bold with a colorful bench top
Dark cabinetry adds character along with a patterned splashback (think shapes)

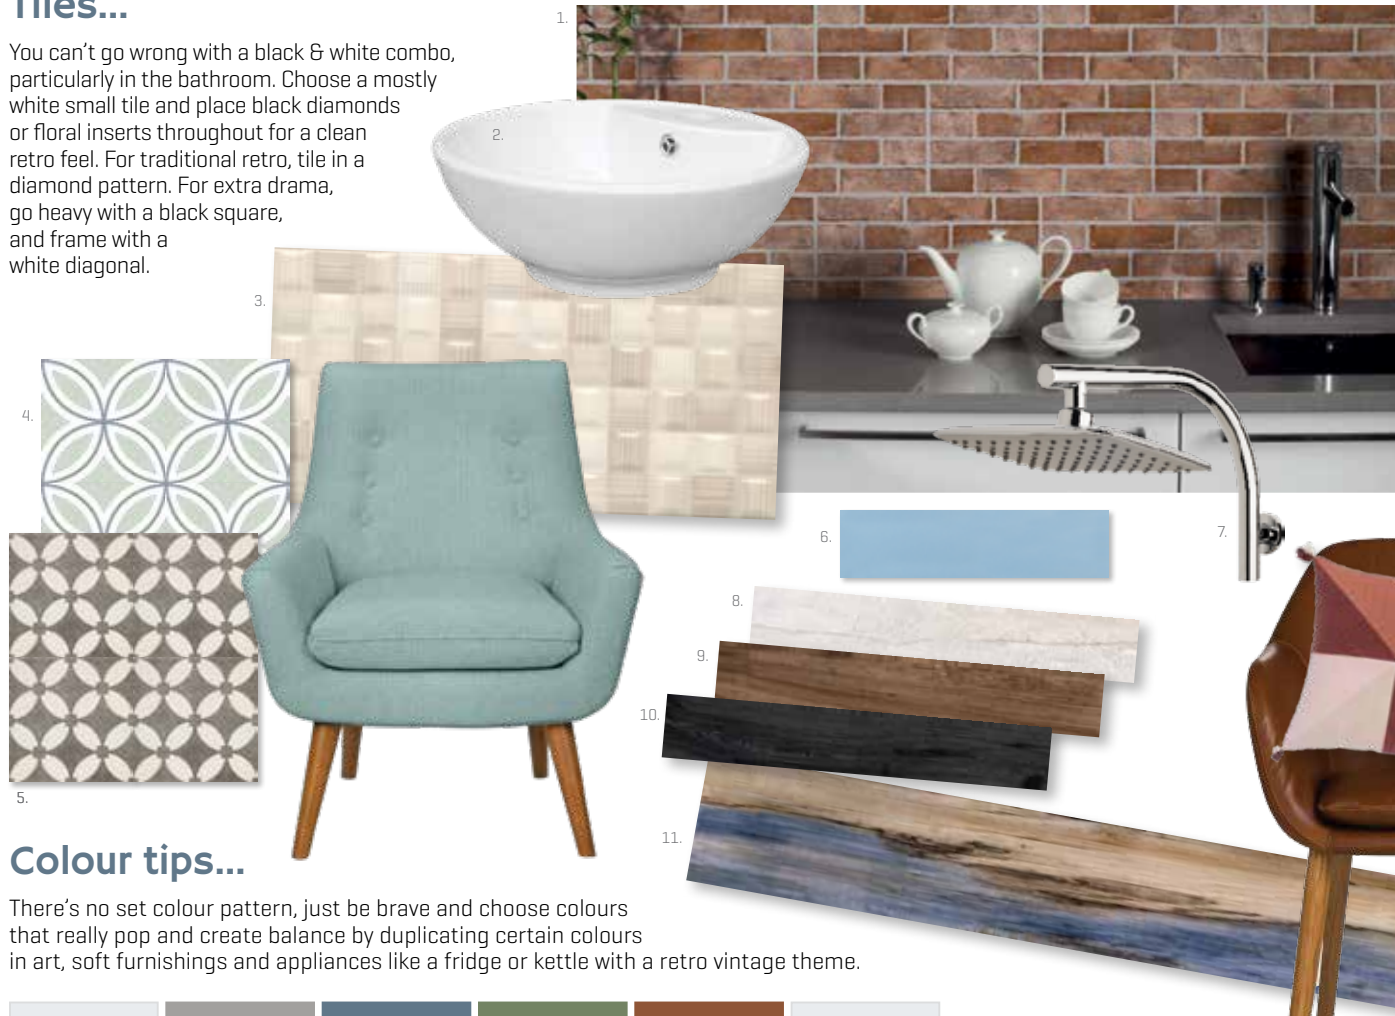

FURNITURE AND FINISHING TOUCHES

Use bright and classics prints and find some cushions or throws to colour match
Find classic soft furniture in sexy tones
Then contrast these deep tones with crisp white pieces

Retro Vintage MOOD BOARD - IDEAS TO INSPIRE YOU EVEN FURTHER

Tiles...

You can't go wrong with a black & white combo, particularly in the bathroom. Choose a mostly white small tile and place black diamonds or floral inserts throughout for a clean retro feel. For traditional retro, tile in a diamond pattern. For extra drama, go heavy with a black square, and frame with a white diagonal.

Colour tips...

There's no set colour pattern, just be brave and choose colours that really pop and create balance by duplicating certain colours in art, soft furnishings and appliances like a fridge or kettle with a retro vintage theme.

The Stylists

Country Chic

You have permission to be cosy, comfortable, warm and charming [of course]. All are characteristics of Country Chic. It's an atmospheric relaxed style that honours rustic imperfection and is not afraid to be a little heavy handed with furnishings and florals.

There's just one problem – your guests won't want to leave...

Style Checklist

BATHROOMS

Go for a light and bright country look or opt for a moodier scheme with contrasting light and dark accents
Choose neutral tiles paired with a light coloured subway

Use traditional rounded tapware and decorative handles in chrome, gold, rose gold or brass or white

If budget allows, pick a feature claw-foot bath

Shaker style cabinetry is perfect

Barn-style wall lights give a simple but charming ambience

MAIN FLOOR TILE

Stick to earthy tones such as natural timber-look tiles or stone looks

For drama, choose a darker tile with some light and dark rustic highlights

Run the indoor tile to the outdoors

KITCHENS

It's the centre piece of a country home so choose a big deep ceramic basin

Benchtaps should be white or cool grey, or opt for traditional timber

Top with overhead open shelved cabinetry and display dinner sets and glasses

FURNITURE & FINISHES

Upcycle for character and charm, or invest in well-built solid timber pieces

Layer soft furnishings in florals, plaids and stripes

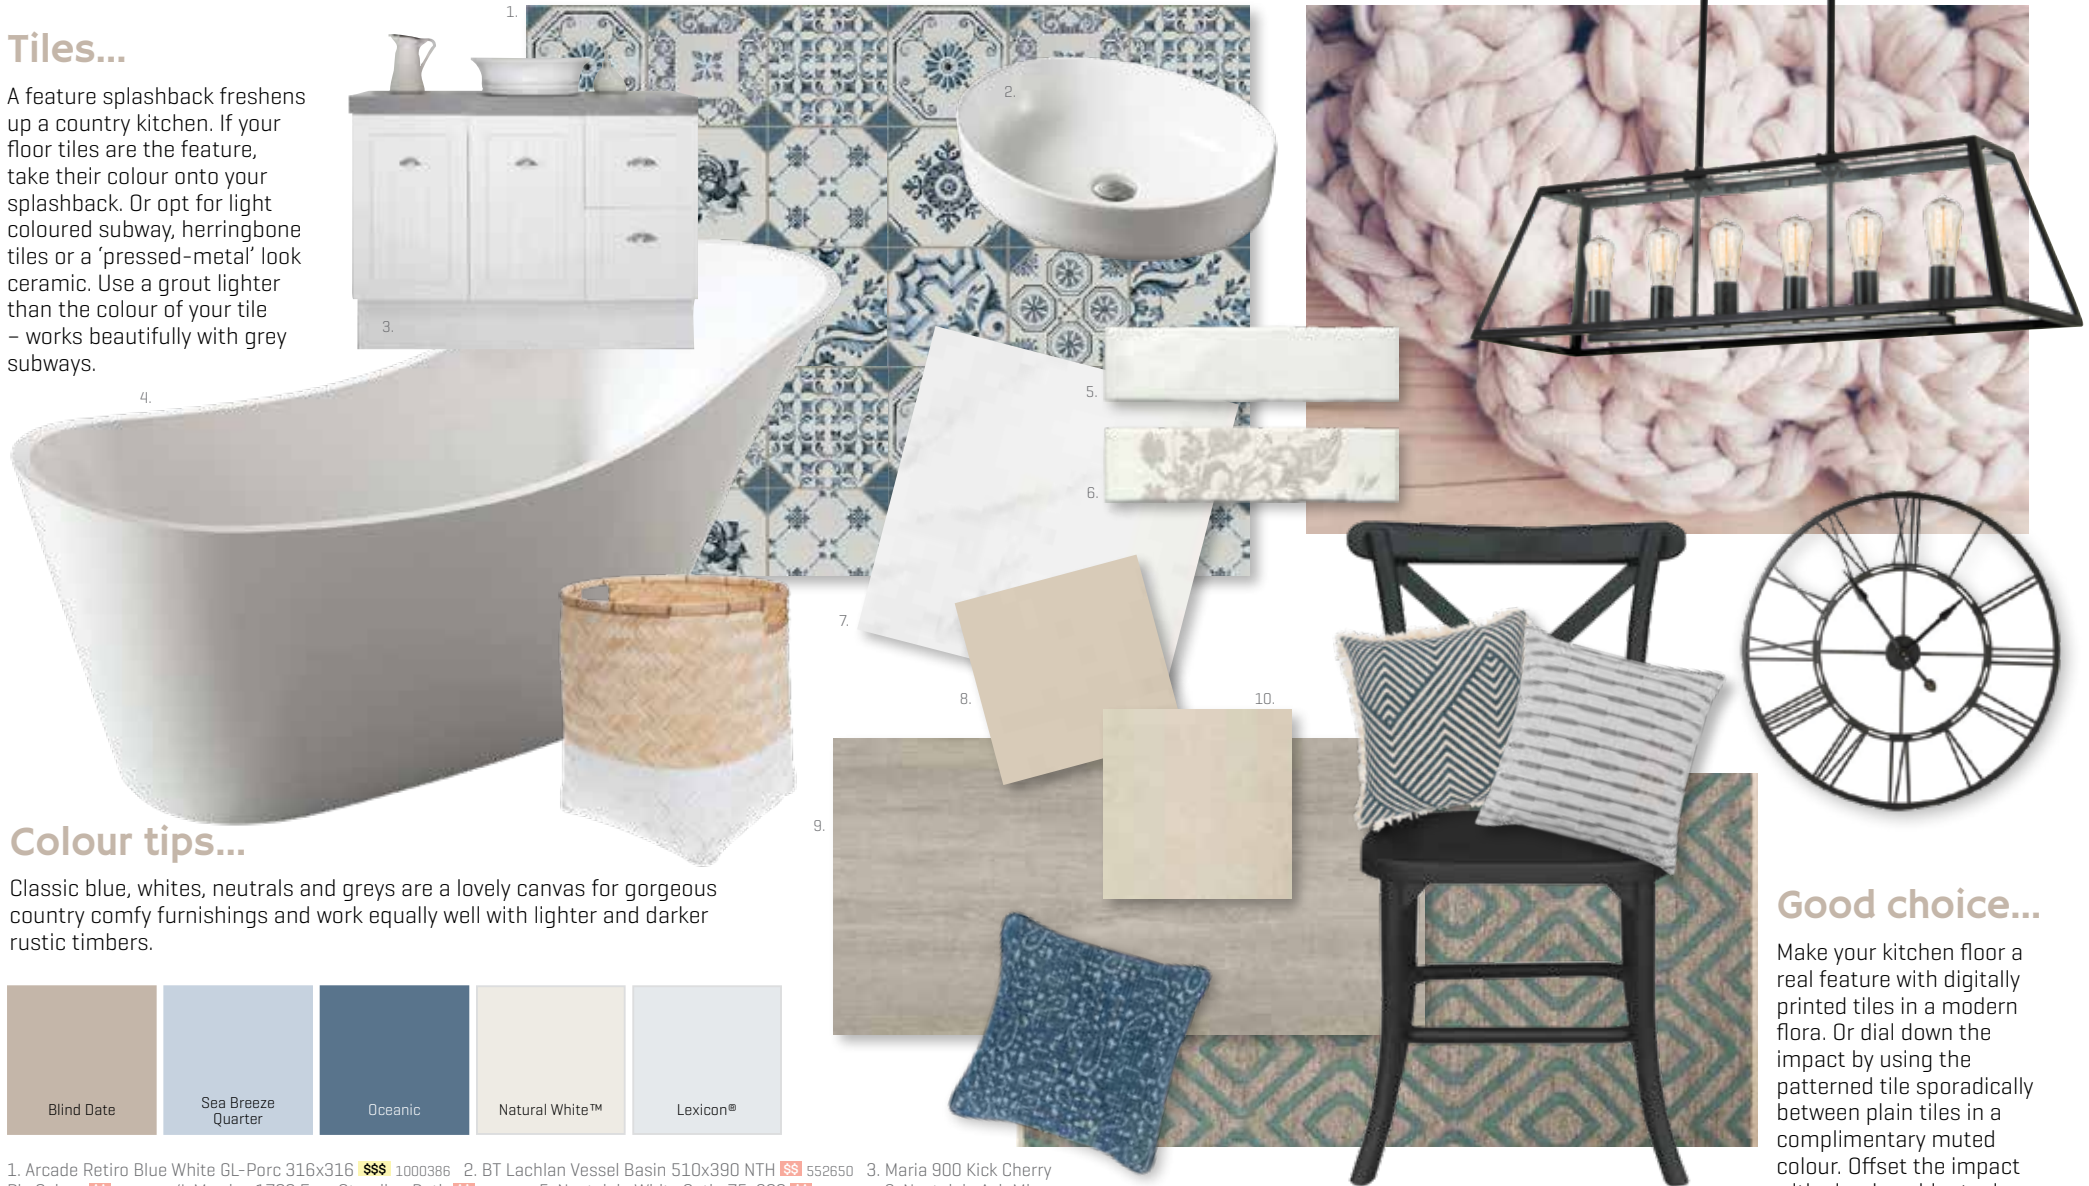

Big baskets make great storage

Country Chic MOOD BOARD - IDEAS TO INSPIRE YOU EVEN FURTHER

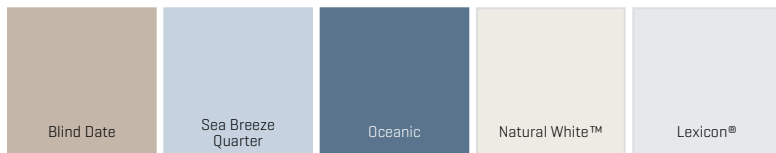

Tiles...

A feature splashback freshens up a country kitchen. If your floor tiles are the feature, take their colour onto your splashback. Or opt for light coloured subway, herringbone tiles or a 'pressed-metal' look ceramic. Use a grout lighter than the colour of your tile – works beautifully with grey subways.

Colour tips...

Classic blue, whites, neutrals and greys are a lovely canvas for gorgeous country comfy furnishings and work equally well with lighter and darker rustic timbers.

DIY TILING MADE EASY

Doing it yourself? Head on over to tile.com.au and click on our **'How To Tile'** section. Our resident DIY specialists, The Block's Kyal & Kara, will introduce you to all the fundamentals of tiling and show you the tricks to do a great job.

There's a host of quick reference videos to follow, plus we've got advice for some of those trickier renos.

Don't forget, if you're a bit unsure, get a professional in to help.

NEED A TILER?

There's some tiling jobs you can do yourself, and there's some best left to a professional.

Check out our list of top-notch tilers at tile.com.au. Click on 'Tilers' and 'Find a Tiler'.

Just tell us a bit about the job you've got going - is it a big or small job or a reno using special products like marble - and we'll try and match you up with a specialist.

We always recommend you check their credentials. Here's what to get:

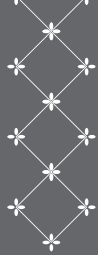

- The tiler's qualifications and experience as it relates to your job (even ask to visit a job they're doing)
- A written quote (get two or three to compare)
- Insurance details and any guarantees they offer for workmanship, quotes, and completing the job on time
- And check out if they clean up after the job - it's a little dusty!

Don't forget our **Exclusive Visualiser** is your personal visualiser.

No need to imagine what your tile selections will look like, enter them into our **Exclusive Visualiser** and see!

SUPER TIPS FOR Sparkling walls and floors

Tiles are a perfect choice for floors and walls.

They're affordable, low maintenance and durable, and great for people with health conditions, like asthma. Under tile heating makes them suitable no matter where you live.

Contemporary decor puts tiles at the centre of design and not just for traditional areas such as bathrooms and kitchens.

Tiles are now part of an entire home design; they're being used on walls to create art gallery inspired features, and across living areas into the outdoors to create a wonderful feel of space.

It's easy to keep tiles looking great, just follow these tips.

GENERAL CLEANING

- Sweep, or better still, vacuum tiles regularly so dirt doesn't build up
- Clean tiles with mild detergent or household cleaner (no acid or alkaline), or go natural by mixing vinegar and warm water

- Avoid abrasive cleaners (powders and gritty cream) as they can scratch and make tiles harder to clean
- Remove a stubborn spot by gently scrubbing with a paste of bicarbonate of soda and water

PREVENT DAMAGE

Avoid scratches by using gliders under furniture and good mats at the front door to keep out grit. Ditch the high heels if your floors are high gloss.

Just one more. Always buy an extra box of tiles in case you need some spares in the future.
