EVOLUTION

Style the surfaces of your kitchen with the latest global trends using **polytec**'s extensive Evolution range. Blend unique textures, tones and finishes to achieve a contemporary look.

Mix warm colours with cool accents, and matt surfaces with a glossy finish. Choosing from the Evolution range enables you to achieve a truly leading edge kitchen design.

Today's kitchen is about individual style and taste. Tall cupboards featuring timber grains or silky finishes that stretch from floor to ceiling provide the perfect backdrop for your choice of ultra glossy or matt doors and drawers.

The Evolution range is a collection of **polytec**'s leading and most innovative ranges - Legato, Ravine, Createc and the new Venette range. Designed to be complementary, these ranges allow you to infuse your kitchen with the latest colours and finishes.

polytec's Legato range features a super matt, non reflective finish. This subtle, understated look is imbued with lighter, timber tones and delivers a fresh, refined presence.

polytec's Ravine range showcases the best natural touch timber surface lightly coloured with warm and inviting shades.

polytec's Createc range allows your kitchen to shine. Its ultra high gloss surface delivers sharp lines and a polished, sophisticated finish.

polytec's newest innovation in decorative doors & panels delivers exceptional fingerprint resistant technology in the purest matt form. The silky smooth finish of Venette creates an inviting and pleasant touch experience, whilst the pure matt surface assures low light reflection, reducing the need for constant care and cleaning. Venette's advanced surface technology creates a soft appeal, and invites you to explore the surface without the concern of excessive fingerprints and scuff marks. Australian made and exclusive to **polytec** Venette pure matt will add a touch of luxe to any interior joinery application.

Blend your choices to capture the latest design trends and style your ideal kitchen.

Doors, panels, and shelving in **RAVINE** Notaio Walnut.

Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

ENVIRONMENT & SUSTAINABILITY

polytec is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily. Our decisions are made so that they have minimum negative impact on the environment.

Our product is manufactured from managed and renewable plantation pine, and on request can be purchased as Responsible Wood chain of custody certified. All **polytec** board products are manufactured from E0 or E1 MDF.

We manage waste responsibly through numerous recycling programs including aluminium and metals, used oils and timber waste is recycled back into energy. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government's Energy Efficiency Opportunities (EEO) program.

polytec doors and benchtops are Australian Made & Owned.

CARE & MAINTENANCE

polytec do not recommend the use of Evolution products in a sliding or non-fixed application (hinged) unless the use of a mechanical stabilising system is fitted.

Your Evolution doors and panels are made from a Moisture Resistant Medium Density Fibreboard (MR MDF), but as with many wood based panels, they are not waterproof. Care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

Evolution doors and panels should be cleaned by wiping down with a white damp soft cloth and warm soapy water. For more stubborn stains use a mild household cleaning spray. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain a beautiful kitchen surface for many years.

Visit www.polytec.com.au for specific care and cleaning information. Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.com.au.
