## ULTRAGLAZE

Inspired by top design houses, **polytec**'s Ultraglaze doors & panels offer interior designers and architects a new dimension in creating kitchens and rooms of breathtaking beauty.

With the introduction of Ultraglaze Ultramatt finish, you can reap the benefits of the original product while maintaining style and modernity. Ultramatt allows depth and class with a pleasant aesthetic appeal, and can be used on its own or in conjunction with Gloss, which captures the light and surrounding reflections.

Incorporating Gloss and Ultramatt finishes into your décor is the perfect way to add visual interest to a pared-back neutral palette. Couple Ultraglaze Gloss alongside Ultraglaze Ultramatt to create the perfect balance of contrast. Alternatively match Ultraglaze with Ravine embossed wood grain features to add warmth and soften a sleek scheme.

Ultraglaze provides contemporary lines that are enhanced when combined with the sleek Shadowline door or matching edge finish. With an unsurpassed Gloss and Ultramatt level, the result is stunning to say the least.

Doors and panels in **ULTRAGLAZE** Superior White.  
Bar panels in **MELAMINE** Shannon Oak Matt.

ULTRAGLAZE Gloss range

Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

ENVIRONMENT & SUSTAINABILITY

**polytec** is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily. Our decisions are made so that they have minimum negative impact on the environment.

Our product is manufactured from managed and renewable plantation pine, and on request can be purchased as Responsible Wood chain of custody certified. All **polytec** board products are manufactured from E0 or E1 MDF.

We manage waste responsibly through numerous recycling programs including aluminium and metals, used oils and timber waste is recycled back into energy. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government’s Energy Efficiency Opportunities (EEO) program.

**polytec** doors and benchtops are Australian Made & Owned.

CARE & MAINTENANCE

**polytec** do not recommend the use of Ultraglaze products in a sliding or non-fixed application (hinged) unless the use of a mechanical stabilising system is fit.

Your Ultraglaze doors and panels come with a protective film. Do not remove the film until all trade work has been completed.

Ultraglaze doors and panels are made from a Moisture Resistant Medium Density Fibreboard (MR MDF), but as with many wood based panels, they are not waterproof. Care should be taken to wipe up spills immediately, ensuring the doors and panels are not exposed to high or continuous levels of moisture, steam and humidity.

To clean the Ultraglaze surface, we recommend you continue to use wipe down using a damp soft cloth containing warm, soapy water. For more stubborn stains, use a good quality streak free glass cleaner as per the manufacturers recommendation. Dry using a soft cloth so as not to leave any residue on the door or panel. Always ensure that you refer to the recommendations provided by the cleaning product manufacturer before use.

Never use any cleaning product which are, or contain: alcohol; solvents; abrasives; acetone; paraffin; petrol; pinewood or oils. These chemicals will damage the Ultraglaze acrylic surface.

By following these simple steps you should retain a beautiful kitchen surface for many years.

Visit [www.polytec.com.au](http://www.polytec.com.au) for specific care and cleaning information. Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit [www.polytec.com.au](http://www.polytec.com.au).

**polytec** swatches and samples represent a small area of the overall colour structure, to view the large colour sample, visit [www.polytec.com.au](http://www.polytec.com.au)

The use of our current colour samples gives the colour and finish that a customer would expect to receive. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.
