GREYS

Greys are timeless in their ability to instil a calm sense of style. From cool greys with the brutalist patina of rugged concrete to the quietest of pale, silvery shades and heavily patinated charcoals, greys have an enduring ability to reinvent a space and transform a style.

BLACKS

Blacks create endless design opportunities with a rich, intense and versatile character. Textured or polished, you can combine these colours with black cabinetry and flooring for an achromatic scheme or introduce contrast with white or grey cabinetry and flooring. Either way, the stone is always the hero, creating a visual focal point that demands attention.
