FIND THE STYLE that's totally you!

You've spent hours flipping through mags, surfing the net, and collecting way too many samples, and you're still stuck!

Discover your perfect style with our **3 Minute What's My Style online quiz**. You'll go from "I'm just not sure" to "I'm raring to go" in no time.

Here's how to discover your style.

Step 1 Take the Quiz

Jump onto the Beaumont Tiles website [tile.com.au] and click on **What's My Style** quiz. We'll ask you some questions to understand your project, your likes and dislikes. 3 minutes and you're done! Our expert design stylists will match you to one of our 10 popular global styles – a style that's totally you. Armed with your personal style and mood board for your budget, your beautiful tile and furnishing choices will fall into place easily.

Step 2 Follow our stylist checklists to guide your design

Style with confidence with our expertly curated style checklists. There's a checklist for each **What's My Style** theme showing you the types of tiles, colours, cabinetry, finishes and furnishings to help you nail the look. You'll get design guidance for all your major rooms – bathroom, kitchen and main living spaces. It's just like having your very own personal stylist.

Step 3 Be inspired, or replicate the look with mood boards

Selecting one feature product can be daunting, but what about a whole room? The **What's My Style** mood boards will get your creative juices flowing fast. They're brimming with gorgeous pics, ideas and style notes. They're your step-by-step guide to get the most amazing tiles and finishing products to achieve the style you love. Our stylists have scoured Beaumont's incredible selection of tiles and bathroomware to create gorgeous styling solutions using great colour, shape, and texture combinations. Tile artisans worldwide are using the latest technology to reimagine tiles. Think large format, 3D tiles, and digital printed tiles that replicate a time-worn timber look. Their stunning designs are featured across our styles. Use the mood board to replicate the look in your home or as inspiration to build a look that's even more uniquely you. You can't go wrong.

Step 4 Select your products – it's easy!

You will be thrilled with the products our stylists have chosen and we know you'll want them right now. The **What's My Style** quiz result page features quick links to all the gorgeous tiles and bathroomware picked by our experts in our mood boards and our Complete Bathroom Packages. Pick out what you love and save them on your wish list. Select the products the experts recommend or explore even more shades and shapes to individualise your project further.

Step 5 Bring your tile design alive with BeVisual, Beaumont's exclusive online Visualiser.

You've shortlisted some gorgeous tiles from **What's My Style** mood boards and would love to see what they actually look like placed in a real room. So fire up your computer or tablet and jump onto our industry leading Exclusive Visualiser to create dazzling, personalised room images. For renovations of main floors, our **BeVisual Live** is revolutionary, it lets you see it LIVE in your own home. Just snap a photo of your own living room, hallway, kitchen or any floor area. Select your tile from your wish list, play with tile laying patterns, then see your room transformed in a matter of seconds! You can save your designs, email them and share with your friends online to see what they think.

Step 6 Get the job done properly with our professional advice

Want your reno looking great and staying that way? Beaumont's extensive and helpful website has a host of resources for you: tiling tips, finding a professional, and tile maintenance. If you're tackling the job yourself, our DIY tutorials featuring Kyal & Kara are a must watch. Flick to the back of this mag for some pro advice or head to tile.com.au for loads more.

Step 7 Show us your work!

You've completed your dream reno, share the results with us – we'd love to see! Upload your before and after images to Instagram **#ichosebeaumonts**

The Stylists

Mediterranean

A haven warmed by the sun, a quiet place to relax. An indoor-outdoor lifestyle with soul ties to the Mediterranean Sea. It's organic and tactile that is both sumptuous and minimalistic. Sunkissed with a spectrum of earthy colours with a hint of ocean and sky, hold the appeal of an endless summer.

Living Room Style Checklist

LAYOUT

- ✓ Place your chairs for a relaxed, but conversational vibe with comfortable movement
- ✓ Be very precise in your furniture selection, not too little not too much
- ✓ Create a seamless transition from indoors to outdoors

DECOR ACCENTS

- ✓ A predominantly whitewashed and tactile space, adding a spectrum of earthy colours with a hint of ocean and sky
- ✓ Add depth and layering with soft furnishings; hand-woven statement rugs or natural fibre rugs such as Jute, charming linen cushions, and statement floor cushions
- ✓ Natural elements should feature using metal, timber, and ceramics in Artisan and handcrafted styles
- ✓ Blur the lines of indoor and outdoor with some strategically placed plants
- ✓ Exposed wood, in timber beams, coffee tables, bowls, side tables, all building contrast against the whitewashed backdrop

FURNITURE

- ✓ Craftsmanship is key; lounges using solid timber, wicker, or rattan detail will frame soft 'sink into me' cushions
- ✓ Curves built into furniture to soften raw textures in styling.
- ✓ Dining tables will be rustic, and worn with much use, reflect the love of food and bringing people together.

Wet Area Style Checklist

BATHROOMS

- ✓ Choose a warm timber vanity with textural or curved features, and brushed gold tapware. Finish off the look with an arched mirror
- ✓ For your tiles select cotto, beige, or cream stone designs, handmade textures, and Moroccan inspired patterns

KITCHENS

- ✓ Zellige inspired wall tiles are full of personality and create a relaxed atmosphere. Consider both subway and square shapes, and the many different laying patterns to create the exact look you are after for your splashback
- ✓ Take a step directly into northern Africa by selecting encaustic look floors with motifs inspired by ages gone by

MAIN FLOOR

- ✓ Go big or go small. An 800x800mm tile or above in warm tones of stone or marble design in matt finishes. Or the other end of the scale is to go small with a 200x200mm sized tile with loads of character, think motifs or rustic terracotta styles

FINISHING TOUCHES

- ✓ All these details bring it all together, so keep them organic and tactile that is both luxurious and minimalistic
- ✓ Remember to balance your overall look, don't layer too many patterns. It's relaxed and paired back; each element should have space to breathe.

The Stylists

Eclectic

Eclectic style? It's like saying, "Rules? What rules?" It's about mixing and matching to create a space that's as unique as you are. Blend textures, patterns, and shapes for a curated chaos, smoothing it out with good vibes and no clutter. Let your personality shine by harmonizing different styles, eras, and inspirations into a cohesive whole.

It's your space, your style, your story—
no need for conformity.

Living Room Style Checklist

LAYOUT

- ✓ Kickstart with a bold mix of furniture pieces and vibrant rugs, exploring until you discover your personal rhythm.
- ✓ Arrange your layout to accommodate real plants, considering their light requirements as part of your design scheme.
- ✓ Build your layout around a focal point to bring structure to the chaos.

DECOR ACCENTS

- ✓ Showcase your eclectic style with distinctive pieces that reflect your personality. Think travel souvenirs and one-of-a-kind finds.
- ✓ Embrace pattern and texture! From baskets to wall hangings, mix and match visual contrasts like natural fibers, geometric shapes, or colorful florals to add depth to your space.
- ✓ Exercise restraint by selecting only your absolute favorite decor items and keeping true to your chosen colour palette.

FURNITURE

- ✓ Think outside the box, and don't be afraid to choose the unconventional
- ✓ Use metallic embellishments and natural elements like stone and timber.
- ✓ Imagine a blend of vintage and modern furniture, using a mix of bold colours or rich textures, and an eclectic array of artwork and decor accents that reflect your personal style and interests.

Wet Area Style Checklist

BATHROOMS

- ✓ Go for a rustic glazed mosaic letting it curve around the corners. Pair with a bold stone or marble floor tile
- ✓ Choose a curved, stone standalone bath against a room tiled Moroccan style, floor to ceiling with black tapware accents
- ✓ Add ornate towels and exotic soap dishes

MAIN FLOOR TILE

- ✓ For your tiles, start with a lively stone design or raw timber look full of character. They set the tone for styling
- ✓ Consider a mosaic or tile with a pattern for a feature
- ✓ Then add rugs that are rich in texture, intricate and imperfect patterns

KITCHENS

- ✓ Texture is king in the kitchen, handmade look tiles, terrazzo speckled mosaics, or heavy stone splashbacks
- ✓ Make it personal; bring out your grandma's favourite pan, or a beautiful paella clay pot inspired from cuisine you love

FINISHING TOUCHES

- ✓ This style is playful and bohemian at heart with your hand-picked favorites. Add indoor plants you may have seen on your travels.

In-House
Stylist

Traditional

Always warm and welcoming, this style is timeless and is inspired by high end trends from the past, reminiscent of a five star European classic hotel. It feels familiar and elegant and holds no surprises.

It's spacious, symmetrical and totally liveable. Finally, thankfully, I'm home.

Living Room Style Checklist

LAYOUT

- ✓ Symmetry is a significant characteristic of traditional style. Have a focal point to work around, such as a fireplace, rug, or coffee table
- ✓ Buy in pairs to help build symmetry, such as two lamps, two sofas, and matching artwork

DECOR ACCENTS

- ✓ Moldings trims and railings are all typical elements in period homes and set the right mood for a traditional style
- ✓ Choose pillows and accessories with classic emblems
- ✓ Accessories should include urns, plants, mirrors, framed prints, china, vases, and collections of books. Pairs of objects are recommended to arrange in balanced symmetry

FURNITURE

- ✓ Use a sofa with rolled arms or tufted features to add texture and character whilst making a distinctive, traditional statement
- ✓ When selecting sofas, choose upholstered furniture with classic lines and smooth edges

WINDOW TREATMENTS

- ✓ Heavy lined, floor-to-ceiling drapes are a signature of traditional interiors. This is a visual trick to make the room look taller and the space airier

LIGHTING

- ✓ Use your lighting as essential design statements. Choose for a statement chandelier, decorated sconces, and structural table lamps.

Wet Area Style Checklist

BATHROOMS

- ✓ Choose a tuxedo-style palette. Its black and white hues are elegant and timeless
- ✓ Or create a feature in subway tiles and frame it with co-ordinated floor tiles
- ✓ Create a balanced space incorporating clean sharp lines with soft elements, like sheer curtains, and indoor plants
- ✓ Glam it up with gold taps or a feature claw foot bath in dramatic black and white

MAIN FLOOR TILE

- ✓ You can use either light or dark tiles here so nail your interior colour scheme first

KITCHENS

- ✓ Embrace white or light marble and accent with a natural hue
- ✓ Choose timber look tiles [perfect for wet areas]
- ✓ You can also mix tile patterns to add texture
- ✓ Try french pattern stone tile floor with brickbond tiles as a feature wall or splashback

FINISHING TOUCHES

- ✓ Don't go overly ornate; use contemporary furniture with subtle classic details
- ✓ Go for tactile fabrics and upholstery and layer with handpicked textiles like linen, velvet or other softer fabrics.

The Stylists

Coastal

Childhood memories. Collections from the sea shore and beyond. Drift wood centrepieces.

Coastal is the enduring beach side retreat where city stress fades away in a heartbeat. It's bright and breezy and where nature takes centre stage.

Tip...
Tiles are an excellent allergy free flooring choice for bedrooms for people who suffer from allergies and asthma. The smoother the tile surface the less likely it is to attract allergens.

Living Room Style Checklist

LAYOUT

- ✓ Your coastal living room layout needs to be considerate of the outside. Think about adding a window or bi-fold doors to lead from your living room to the outside
- ✓ When considering your layout, surfaces should be kept simple for an easy transition from in to out whilst working to maximize natural light when shut up

DECOR ACCENTS

- ✓ Have fun with your decor. Pair woven textures, collected shells and driftwood, and artwork to tell a story
- ✓ When choosing a rug, think practical for sandy beach days. Something easy to clean that will stand up to busy family gatherings. Incorporate natural fibers such as a jute rug to connect to the outdoors whilst providing practical functionality
- ✓ Choose your indoor plants with your overall coastal style in mind, Monstera for resort, Bird of paradise for tropical or Ficus for hamptons inspired.

FURNITURE

- ✓ Especially important for coastal homes are furniture covers for those sandy days. Choose a sofa with easy care covers or add large throws for easy washing
- ✓ Keep furniture light and airy with white or pale timber accents

WINDOW TREATMENT

- ✓ Choose white timber shutters for the ultimate coastal vibe. To add some more softness, consider roman blinds for your large windows or bi-fold doors

LIGHTING

- ✓ With your large window or bi-fold doors, your living room should be feeling light and airy. Use lighting to complement such as down-lights with a feature pendant paired with a floor and table lamps.

Wet Area Style Checklist

BATHROOMS

- ✓ Choose white baths and basins with soft curves and brushed tapware with warm colours like brushed gold or copper
- ✓ Use natural and even textured tiles such as stone or stone look tiles, timber or concrete
- ✓ Use grout that matches the tile colour
- ✓ Make it even more spacious by running floor tiles all the way up the walls
- ✓ Then style with timber or stone accessories (think stool, bath caddy and scrubbing brushes)

MAIN FLOOR TILE

- ✓ Use timber look planks or large format stone look tiles

KITCHENS

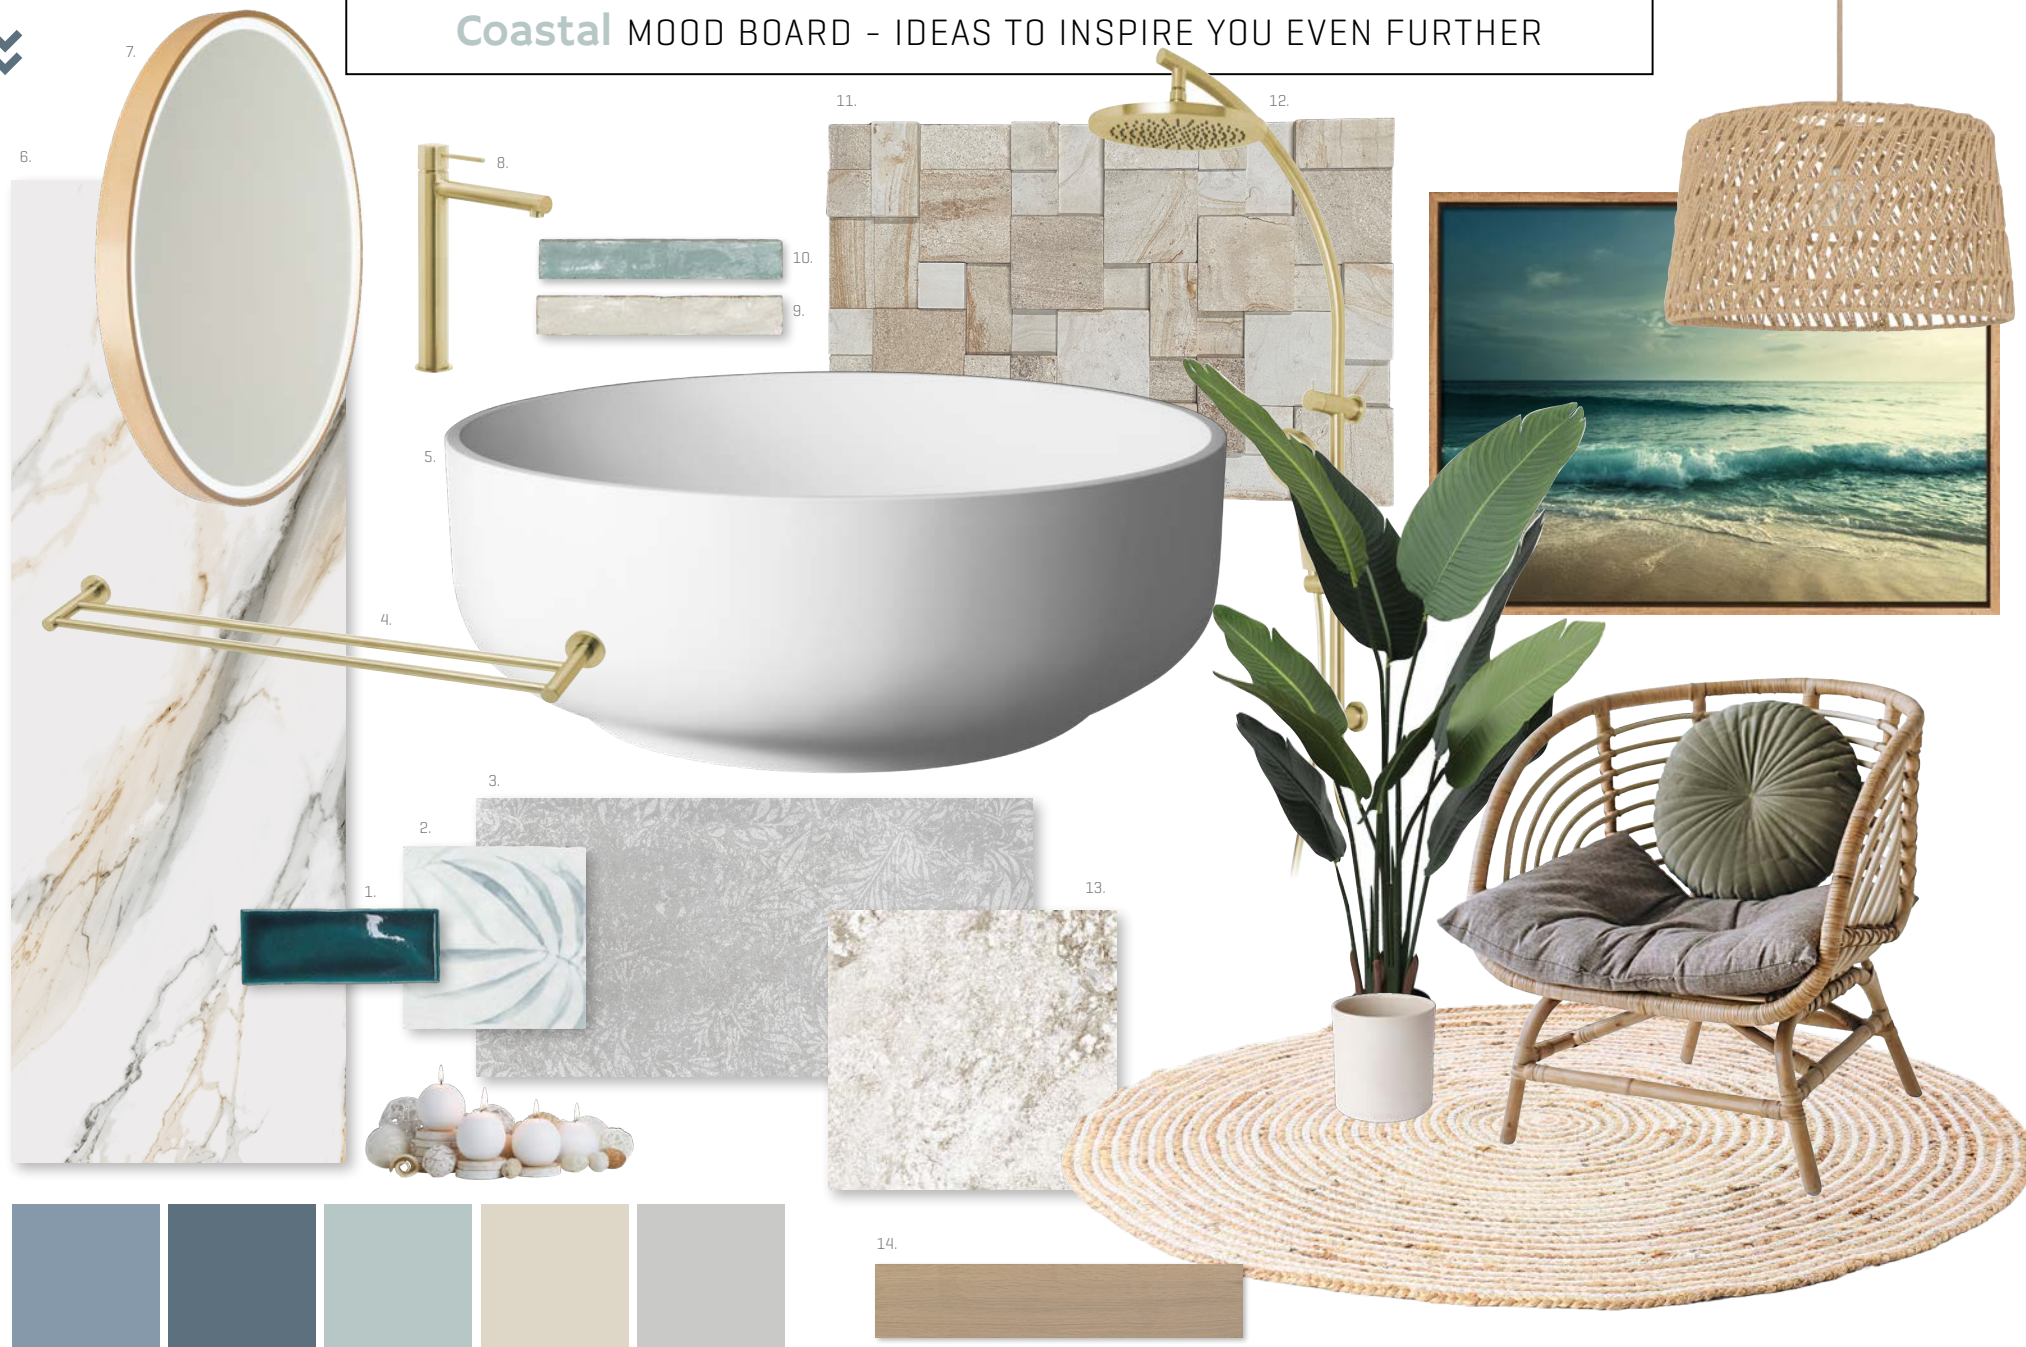

- ✓ Choose a mixture of matt and natural finishes including timber and stone
- ✓ Team with finger pull or simple handles
- ✓ Go for open timber shelves to show off your seaside finds
- ✓ Select a splashback in natural colours

FINISHING TOUCHES

- ✓ Furnishings should be neutral or layer with shades of blue or natural greens
- ✓ Complement with artwork in similar hues (think prints of the ocean or the coast)
- ✓ Use natural finishings such as sisal or jute rugs
- ✓ Complete the look with free flowing plants like a string of pearl or hoyo.

KYAL & KARA

The Stylists

Scandinavian

Scandi style is like a cozy hug for your home. It's all about simplicity, with clean lines, natural materials, and a love for neutral tones.

You'll find plenty of soft textures, warm wood accents, and just the right amount of minimal decor. The result? An inviting space that feels effortlessly stylish and perfectly serene.

Living Room Style Checklist

LAYOUT

- ✓ Scandinavian design is characterised by its innovative and functional use of space. Consider your living room layout to maximise your space and invest in cabinetry or multi-levelled wall shelving storage to save space and add visual interest

DECOR ACCENTS

- ✓ Time to layer with woollen rugs, faux fur and neutral velvet finishes in similar colours
- ✓ Choose decorative accents with simple designs
- ✓ Use throws and pillows with texture and subtle colour

FURNITURE

- ✓ Wooden furniture is popular in Scandinavian design. Choose a wooden coffee table and cabinetry
- ✓ Clean lines are important in Scandinavian design. Furniture should have a modern touch with smooth, rounded edges

CLUTTER-FREE

- ✓ Scandinavian design is characteristically clutter-free and simple. Invest in cabinetry to organize and hide clutter. Choose TV cabinetry that can easily hide wires and connection boxes

WINDOW TREATMENTS

- ✓ You'll want to create an inviting feel to your Scandinavian living room. Do so by minimising window treatments to allow for maximum natural lighting
- ✓ Select light coloured fabrics and sheer curtains

LIGHTING

- ✓ Scandinavian regions enjoy minimal hours of natural daylight each day so well-considered lighting is a significant characteristic of Scandinavian design
- ✓ Incorporate different lighting forms in your living room to set the mood, provide functionality, and illuminate your space.

Wet Area Style Checklist

BATHROOMS

- ✓ Go for tiles with light, cool grey and earthy tones and colour match the grout
- ✓ For cabinetry use light timbers [or timber-look veneers] such as beech or oak
- ✓ Design with light in mind so position mirrors to reflect existing light
- ✓ Small elements of metal such as brushed gold or nickel tapware are Scandi-perfect
- ✓ Style with towels in ether white or cool grey tones with minimal pattern

MAIN FLOOR TILE

- ✓ Try wood look plank tiles in light hues – they emulate timber and are perfect for wet areas
- ✓ Use the same colour grout as your tile to avoid patterning

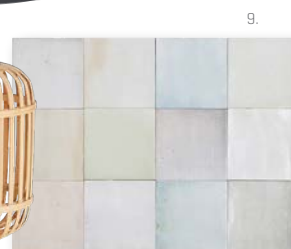

KITCHENS

- ✓ Choose white, light greys and timbers for cabinetry
- ✓ Use open shelving, but don't have too much clutter on show [a couple of recipe books, drinking glasses and plates is fine]
- ✓ Benchtops using marble or concrete are a great natural choice

FINISHING TOUCHES

- ✓ Use fresh flowers and real plants to add a living element. Fresh flowers are prominent in the streets of the Scandinavian region
- ✓ If you want some extra colour, opt for light pastel shades such as blue and/or blush
- ✓ Keep ornaments to a minimum
- ✓ Select functional furnishings in natural timber.

Farmhouse

You have permission to be cosy, warm, and a little rough around the edges, as you nestle into the landscape. Farmhouse is a stylish refuge that honours rustic imperfections and is not afraid to re-purpose and up-cycle.

There's just one problem – your guests won't want to leave...

Living Room Style Checklist

LAYOUT

- ✓ Create a cozy living room by keeping furniture close together. If your living room has a fireplace, anchor your sofas around the fireplace. Ensure there's plenty of seating and cozy throws for everyone in the family

DECOR ACCENTS

- ✓ Farmhouse interior designs are known for furniture and accessories packed full of character and personality, so start with a neutral base to build on

FURNITURE

- ✓ Distressed vintage or antique furniture is what gives the Farmhouse interior design its beauty. Look for an antique coffee table or buffet and hutch to bring personality to your room
- ✓ Invest in a cozy, pillowy linen sofa that's large enough for everyone to relax on
- ✓ Accessorise with soft textures with plenty of throws and cushions
- ✓ Farmhouse interior design is a careful balance between ornate and cluttered. Decorate with pieces that have personality, but be sure to designate a place for each accessory you choose to exhibit

WINDOW TREATMENT

- ✓ Choose thick curtains or roman blinds that keep the cozy vibes in and the cold out. Go for a neutrally coloured curtain to balance the room

LIGHTING

- ✓ Use the lighting to your advantage to create extra warmth and cosiness. Floor and table lamps will help set the scene for cosy evenings while a glass/metal ceiling pendant is the perfect chic addition.

Wet Area Style Checklist

BATHROOMS

- ✓ Go for a light and bright country look or opt for a moodier scheme with contrasting light and dark accents
- ✓ Choose neutral tiles paired with a light coloured subway
- ✓ Use traditional rounded tapware and decorative handles in chrome, gold, copper or matt black
- ✓ If budget allows, pick a feature claw-foot bath
- ✓ Shaker style cabinetry is perfect
- ✓ Barn-style wall lights give a simple, but charming ambience

MAIN FLOOR TILE

- ✓ Stick to earthy tones such as natural timber-look tiles or stone looks
- ✓ For drama, choose a darker tile with some light and dark rustic highlights
- ✓ Run the indoor tile to the outdoors

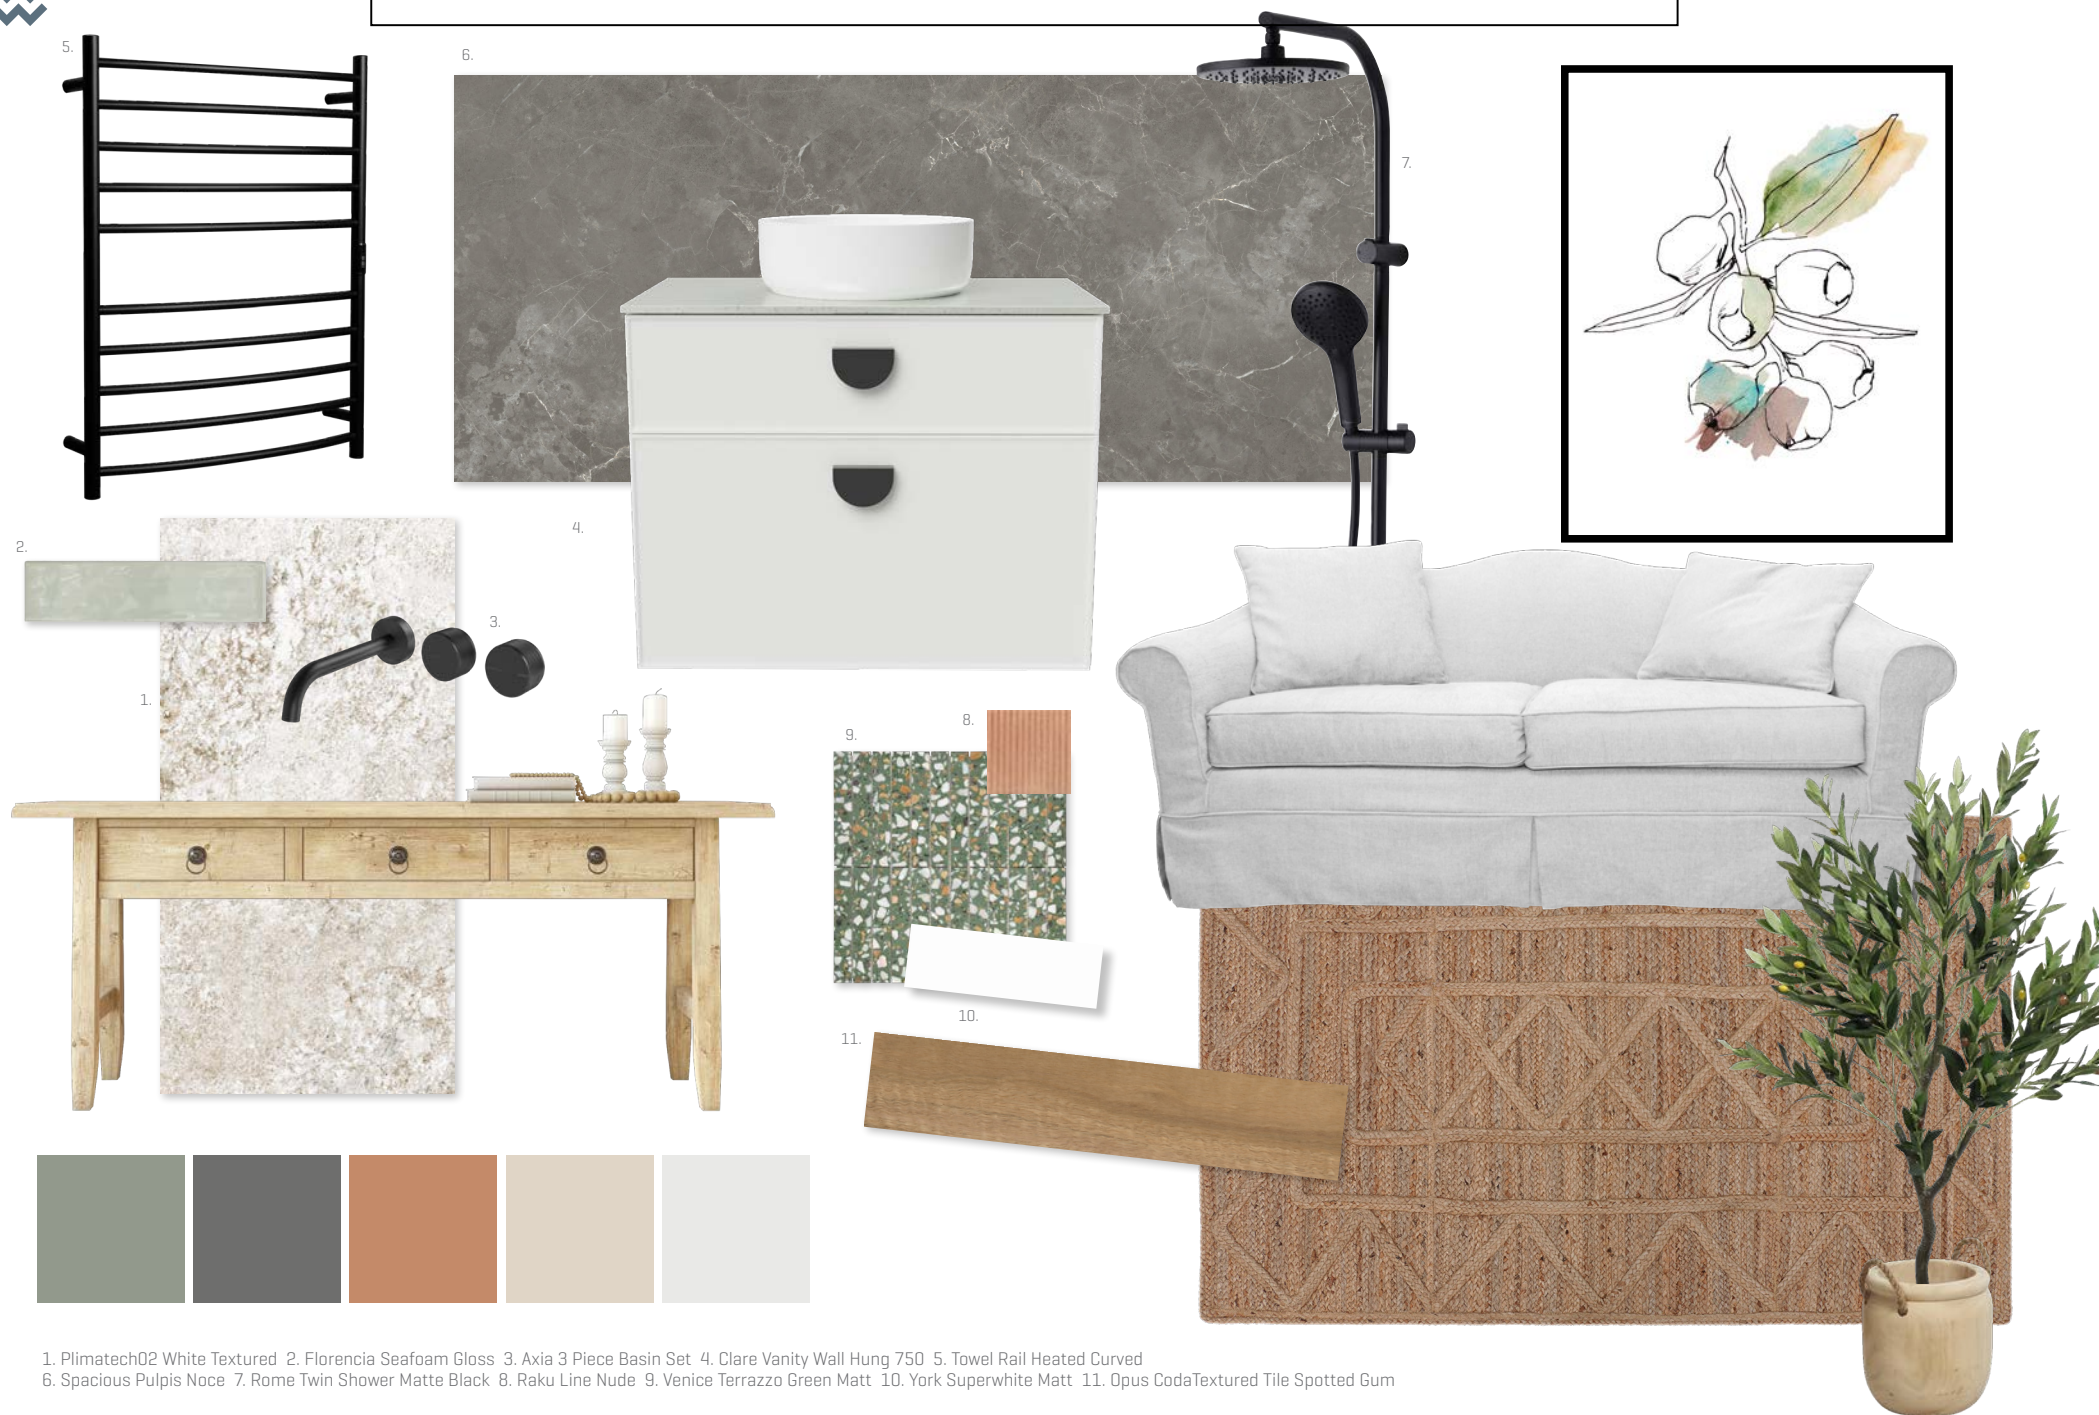

KITCHENS

- ✓ It's the centre piece of a country home so choose a big deep ceramic basin
- ✓ Benchtops should be white or cool grey, or opt for traditional timber
- ✓ Top with overhead open shelved cabinetry and display dinner sets and glasses

FINISHING TOUCHES

- ✓ Upcycle for character and charm, or invest in well-built solid timber pieces
- ✓ Layer soft furnishings in florals, plaids and stripes
- ✓ Big baskets make great storage.

Modern

Life is busy. You're busy. The simplicity of a modern palette is the perfect panacea to a hectic schedule featuring a clutter free, largely neutral décor. Modern is restrained, but bespoke when a bold splash of colour or dynamic forms are used. No need for loads of accessories or distracting patterns in your space.

Living Room Style Checklist

LAYOUT

- ✓ An open plan layout lends itself nicely to the modern style. Ensure well calculated spacing between each zone to maintain an open and clutter-free feel

DECOR ACCENTS

- ✓ Approach accessories and decor with a 'less is more' mindset. Go for large pieces of art over multiple small items
- ✓ Remember smooth, clean lines when selecting artwork

FURNITURE

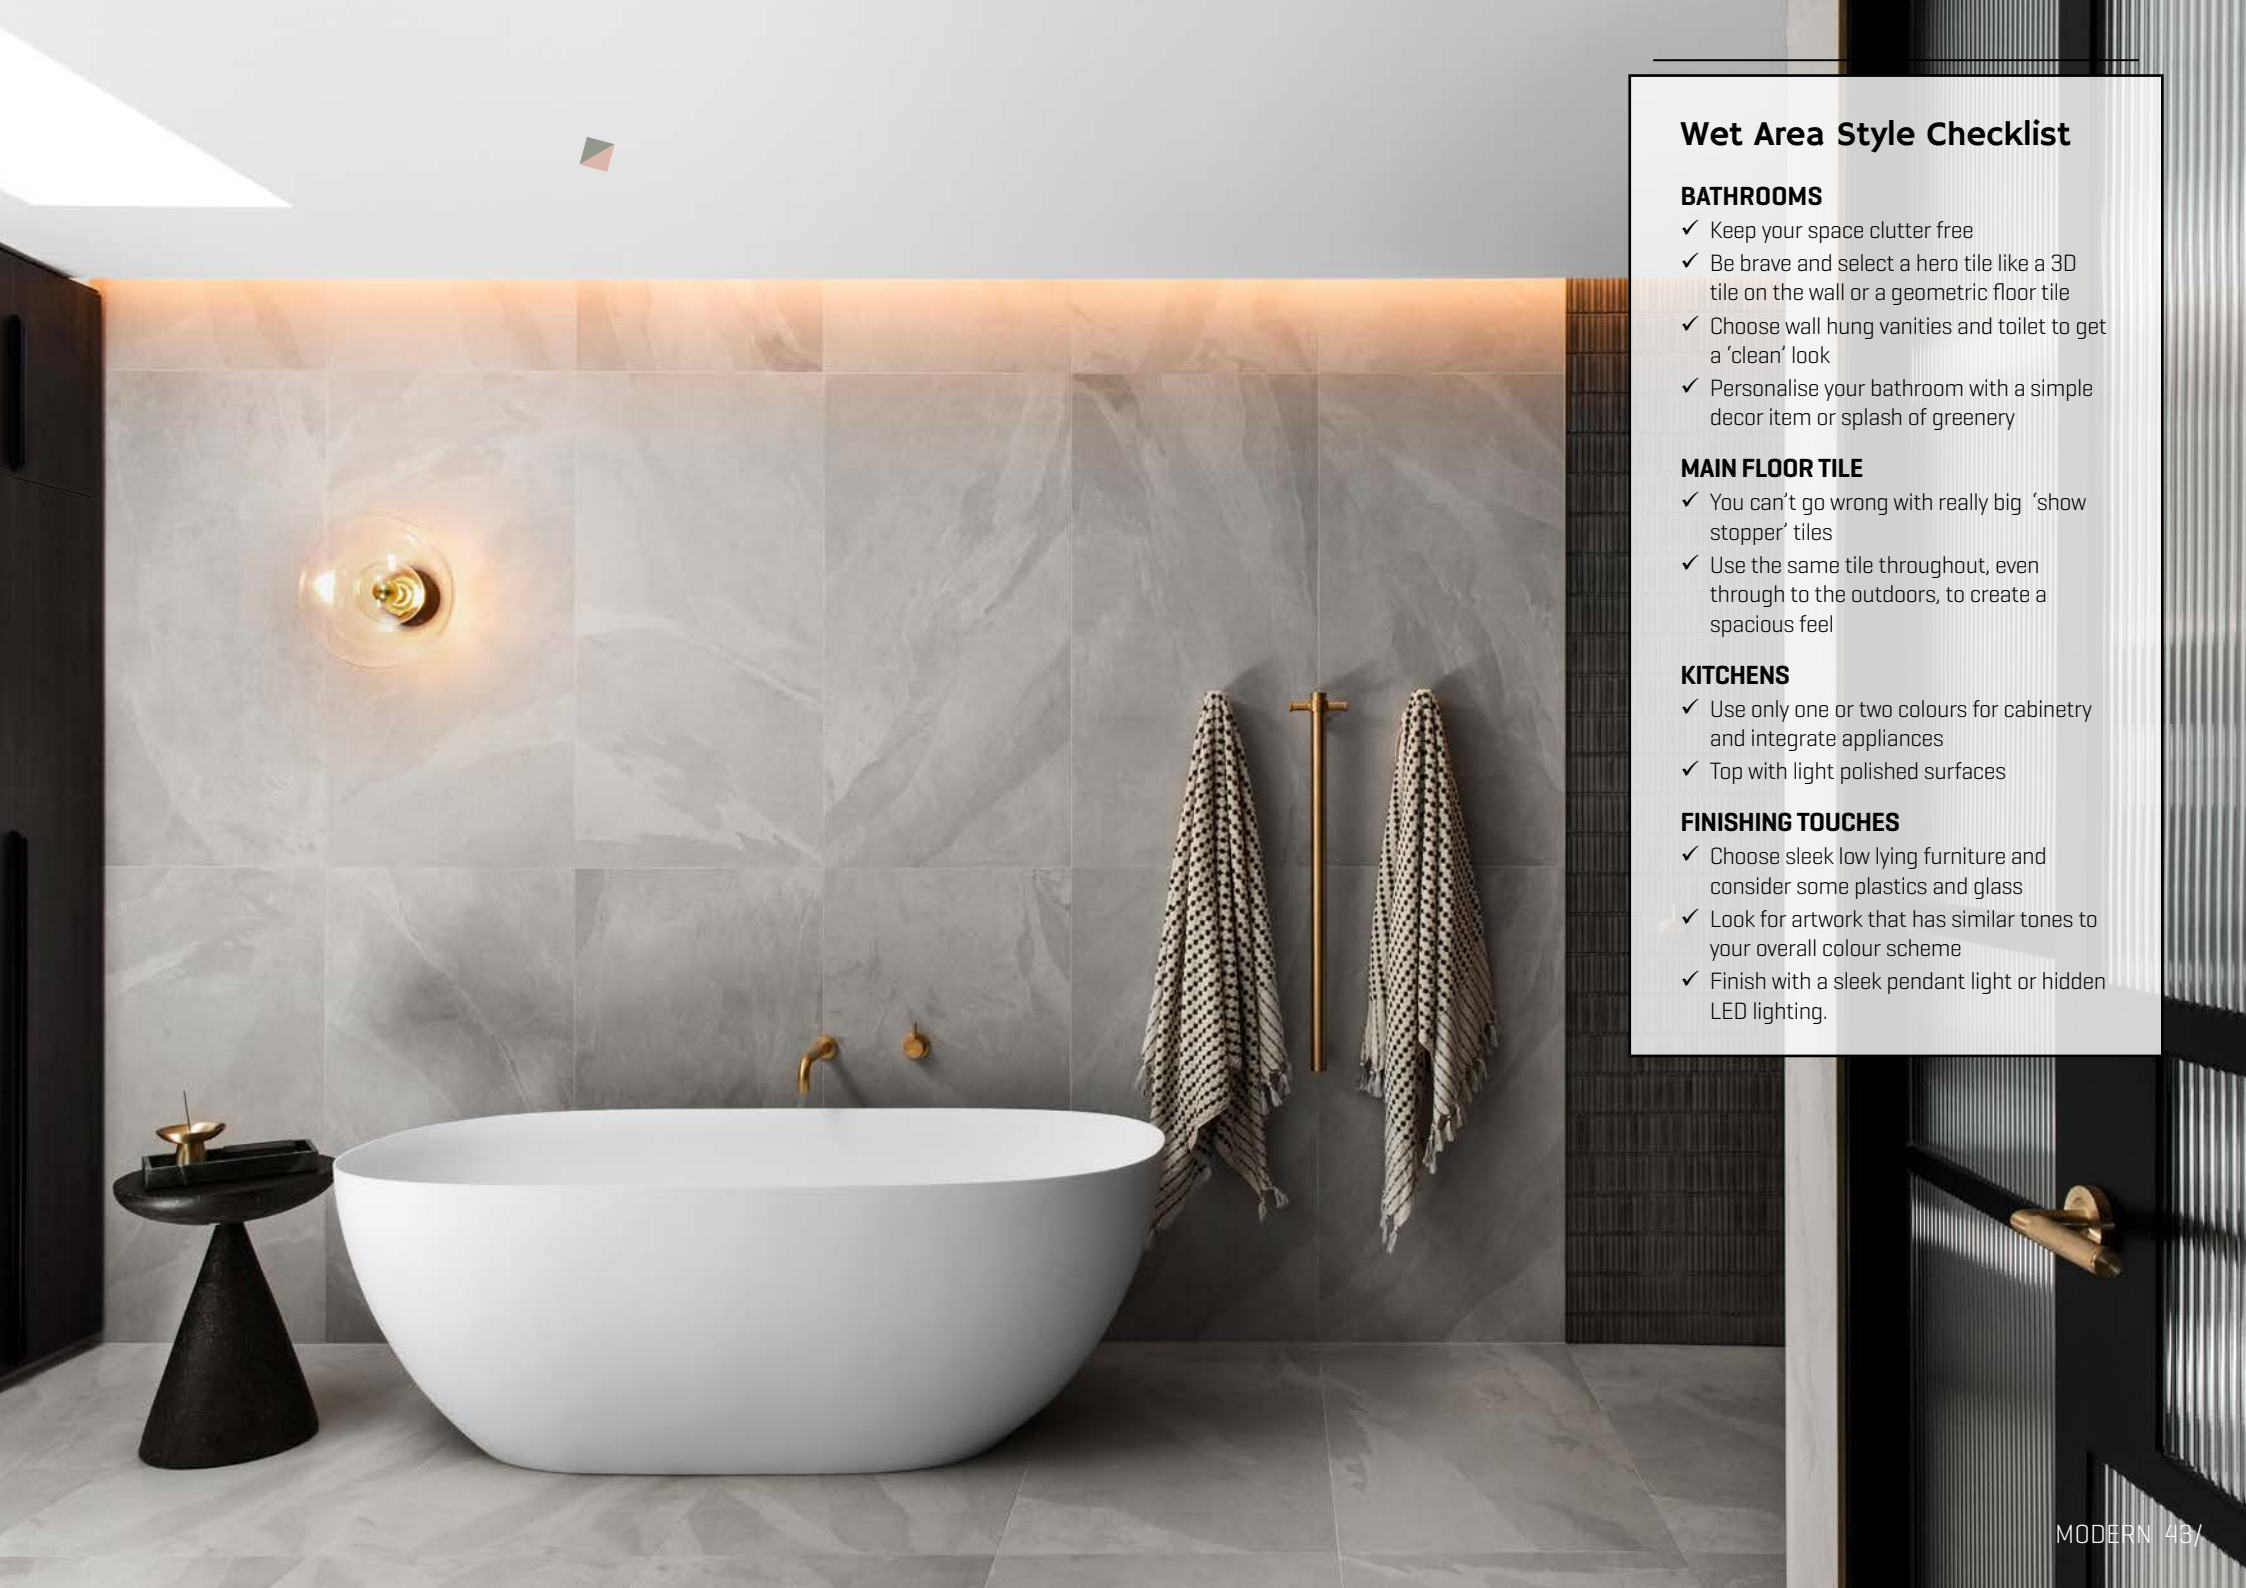

- ✓ A low-lying sofa that's a similar height to your dining table will create a smooth line of sight, working to the open plan, light and spacious feeling
- ✓ Buy a sofa in natural fabrics such as linen or leather
- ✓ Cabinetry should be sleek with clean lines to hide the clutter
- ✓ Add a touch of reflective material with a statement, glass top coffee table

WINDOW TREATMENT

- ✓ Unadorned windows are best for maximum natural light. If window treatments are required in your living room, opt for floor to ceiling curtains in natural, light fabric

LIGHTING

- ✓ With natural light as a key characteristic of modern style, ensure your lighting is well articulated to compliment natural lighting whilst creating ambiance at night. Think recessed ceiling lighting to play on the straight line characteristics of the style and a feature floor and table lamp in steel, chrome, or glass.

Wet Area Style Checklist

BATHROOMS

- ✓ Keep your space clutter free
- ✓ Be brave and select a hero tile like a 3D tile on the wall or a geometric floor tile
- ✓ Choose wall hung vanities and toilet to get a 'clean' look
- ✓ Personalise your bathroom with a simple decor item or splash of greenery

MAIN FLOOR TILE

- ✓ You can't go wrong with really big 'show stopper' tiles
- ✓ Use the same tile throughout, even through to the outdoors, to create a spacious feel

KITCHENS

- ✓ Use only one or two colours for cabinetry and integrate appliances
- ✓ Top with light polished surfaces

FINISHING TOUCHES

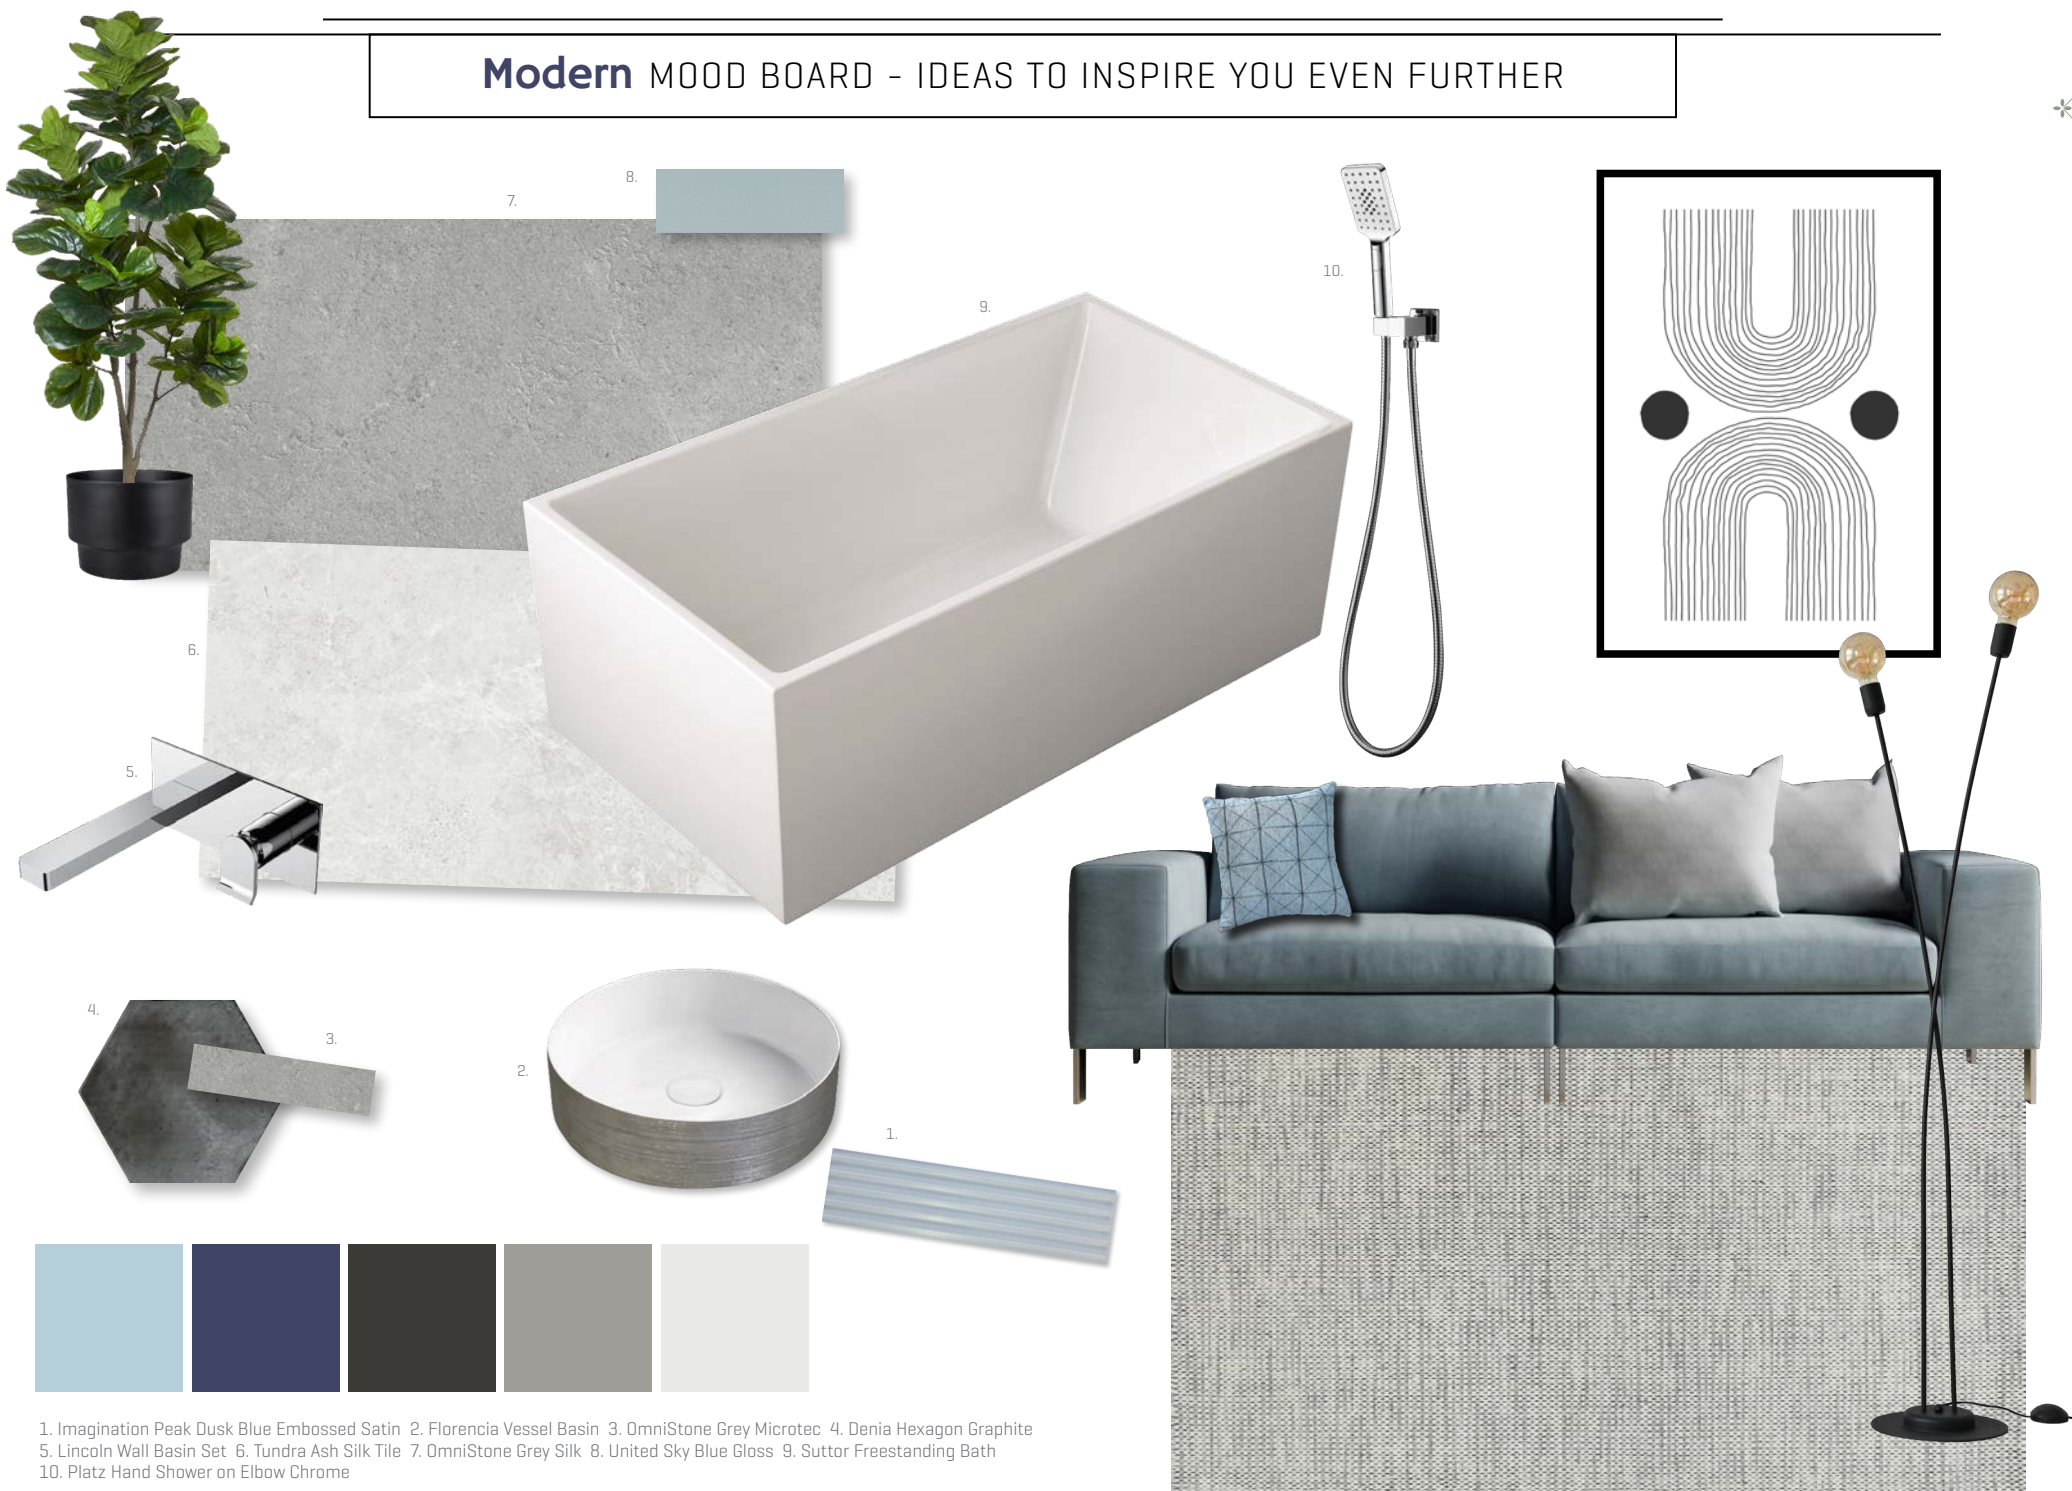

- ✓ Choose sleek low lying furniture and consider some plastics and glass
- ✓ Look for artwork that has similar tones to your overall colour scheme
- ✓ Finish with a sleek pendant light or hidden LED lighting.

Contemporary

Look around, there's sensory overload; sights, smells, sounds. Not in your home though. Here, less is so much more. In fact, what's not there is as telling as what is!

It is simple line and form and a deep appreciation of the very latest in man's design endeavours that makes this style supremely liveable.

Living Room Style Checklist

LAYOUT

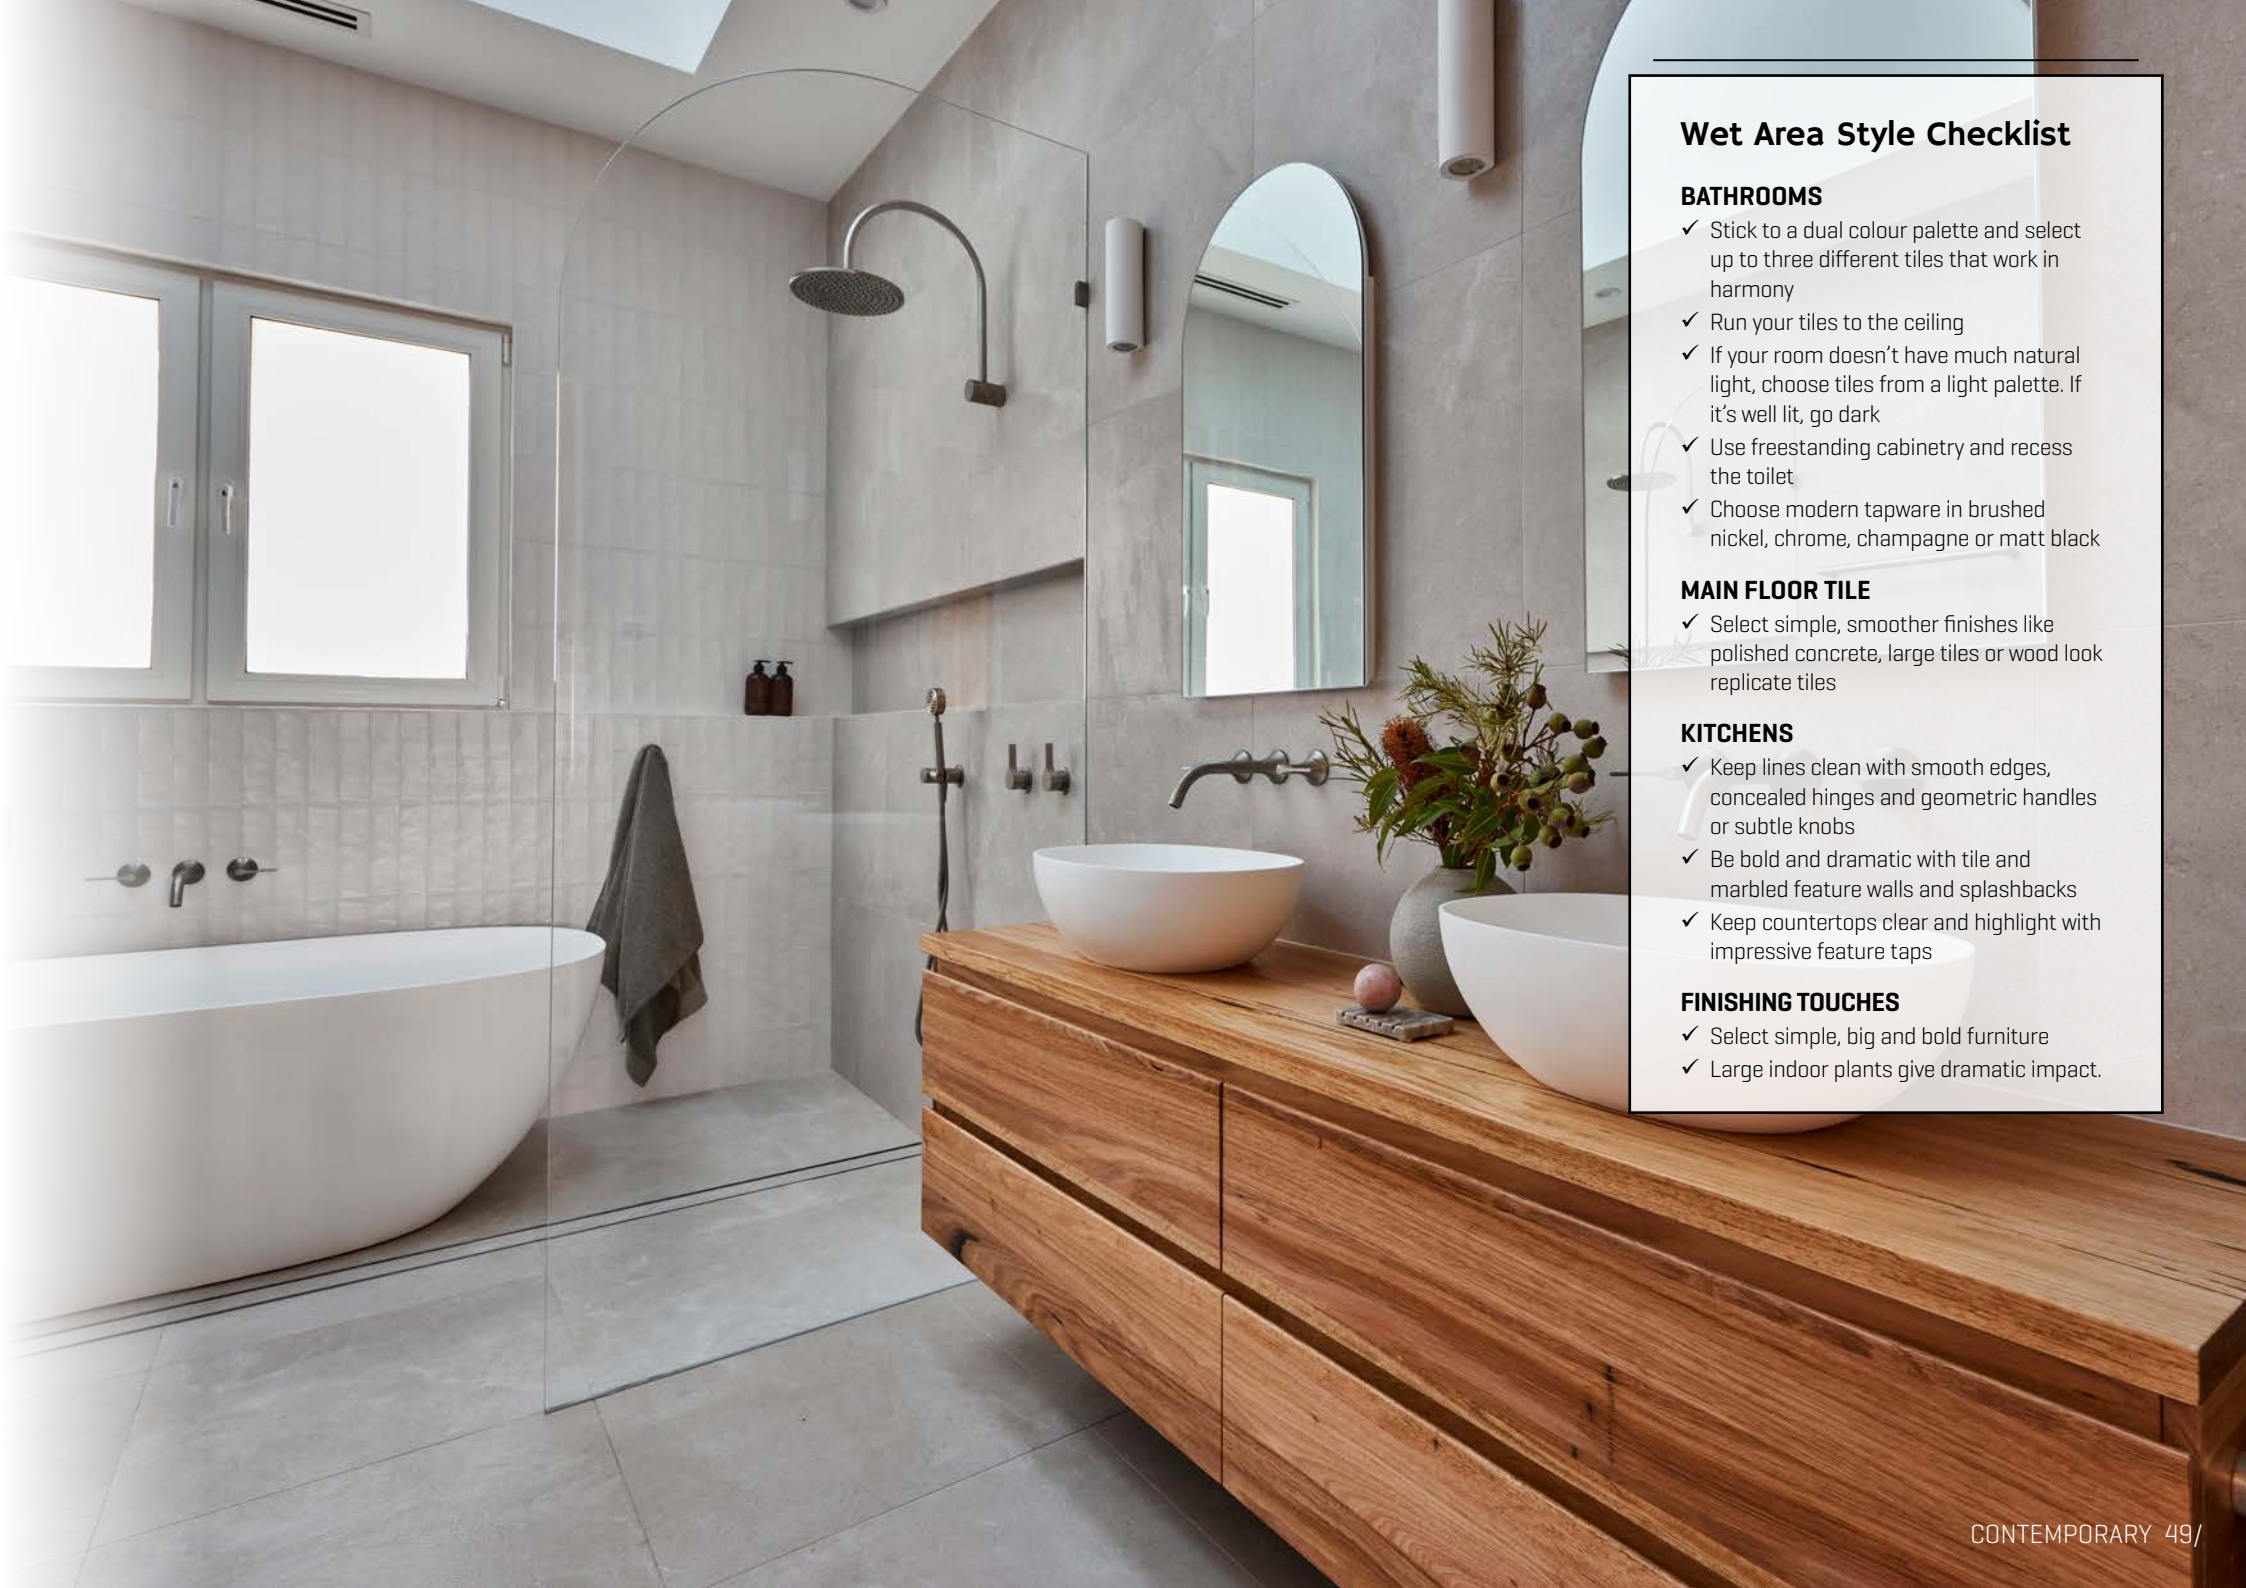

- ✓ A contemporary interior lends itself to a showcase of space rather than things. Living room layouts should have this design principle in mind to pare back on clutter and furniture items

DECOR ACCENTS

- ✓ Contemporary living rooms should be kept to neutrals, black and white colours, but feel free to accent your palette with bright, bold colours to play against the neutral base tones
- ✓ Go for a neutral wall colour to allow for bold accessories, or pastel wall colours with neutral trims. If you have a bold wall colour, ensure neutrals are used in all accessories and furniture
- ✓ Lines are a dominant characteristic in the contemporary style. Whether it's a vertical, horizontal or curve, ensure your living room incorporates lines. Do so in the architectural details such as high ceilings, bare windows, or geometric shapes in wall art and sculptures
- ✓ Choose decorative cushions with clean geometric shapes and a shot of colour and texture
- ✓ Frame artwork with high-gloss, matte black, natural wood, or metal finishes. If using multiple pieces of wall art, hang them close together to give the illusion of one large piece of art
- ✓ Fussy/detailed prints should be avoided since they confuse the plain space that is key to a contemporary-style home. Two-tone large scale designs on a canvas work well
- ✓ Plants and flowers should be large and dramatic in simple containers. Large blooms with interesting leaves work better than small arrangements

FURNITURE

- ✓ Take advantage of furniture to make a bold statement in your living room while keeping it simple and uncluttered
- ✓ Furniture should incorporate either clean, smooth edges, or distinct sweeping curves
- ✓ Your sofa should be black, white, or neutral in natural fibers to add texture [wool, cotton, linen].

Wet Area Style Checklist

BATHROOMS

- ✓ Stick to a dual colour palette and select up to three different tiles that work in harmony
- ✓ Run your tiles to the ceiling
- ✓ If your room doesn't have much natural light, choose tiles from a light palette. If it's well lit, go dark
- ✓ Use freestanding cabinetry and recess the toilet
- ✓ Choose modern tapware in brushed nickel, chrome, champagne or matt black

MAIN FLOOR TILE

- ✓ Select simple, smoother finishes like polished concrete, large tiles or wood look replicate tiles

KITCHENS

- ✓ Keep lines clean with smooth edges, concealed hinges and geometric handles or subtle knobs
- ✓ Be bold and dramatic with tile and marbled feature walls and splashbacks
- ✓ Keep countertops clear and highlight with impressive feature taps

FINISHING TOUCHES

- ✓ Select simple, big and bold furniture
- ✓ Large indoor plants give dramatic impact.

Industrial

Hey You. Take me as I come with all my imperfections and exposed elements.

Industrial sees beauty in the raw, the overlooked and even neglected. It's functional and stylish with surfaces that are not traditional, often stripped back and even salvaged. Its character is utilitarian and certainly doesn't apologise.

Living Room Style Checklist

LAYOUT

- ✓ Industrial style is popular in lofts and old buildings. When creating the style at home, consider a layout that gives your living room the illusion of space and height
- ✓ Use bookshelves and framing to divide the room

DECOR ACCENTS

- ✓ Have fun with the family and paint a wall with chalk-board paint. A functional tool for family organisation that doubles as a piece of art
- ✓ Decorate with black and white prints - think cityscapes, big text, pop-art, or antique-style prints
- ✓ Install exposed shelves and fill them with books and layered artwork for a design statement that's as functional for the family as it is stylish

FURNITURE

- ✓ With the harsh elements of exposed materials, choose a large, comfortable, slouchy sofa, adorned with different textured throws and cushions
- ✓ The relaxed industrial style lends itself perfectly to beanbags and ottomans

WINDOW TREATMENT

- ✓ Exposed windows are common elements in industrial design. Opt for shutters for light and full-length curtains to help build the illusion of high ceilings

LIGHTING

- ✓ Over-sized floor lamps are an iconic industrial design element. Mix and match with table lamps or buy from the same family for a more considered look.

Smile eat laugh

Wet Area Style Checklist

BATHROOMS

- ✓ Charcoal is the industrial colour of choice so lay large format dark floor tiles
- ✓ Team with brass or matt black fittings, old industrial light switches, lamps, and towel rails
- ✓ Timber cabinets inject warmth

MAIN FLOOR TILE

- ✓ Use dark, large format tiles or timber look planks with minimal detail

KITCHENS

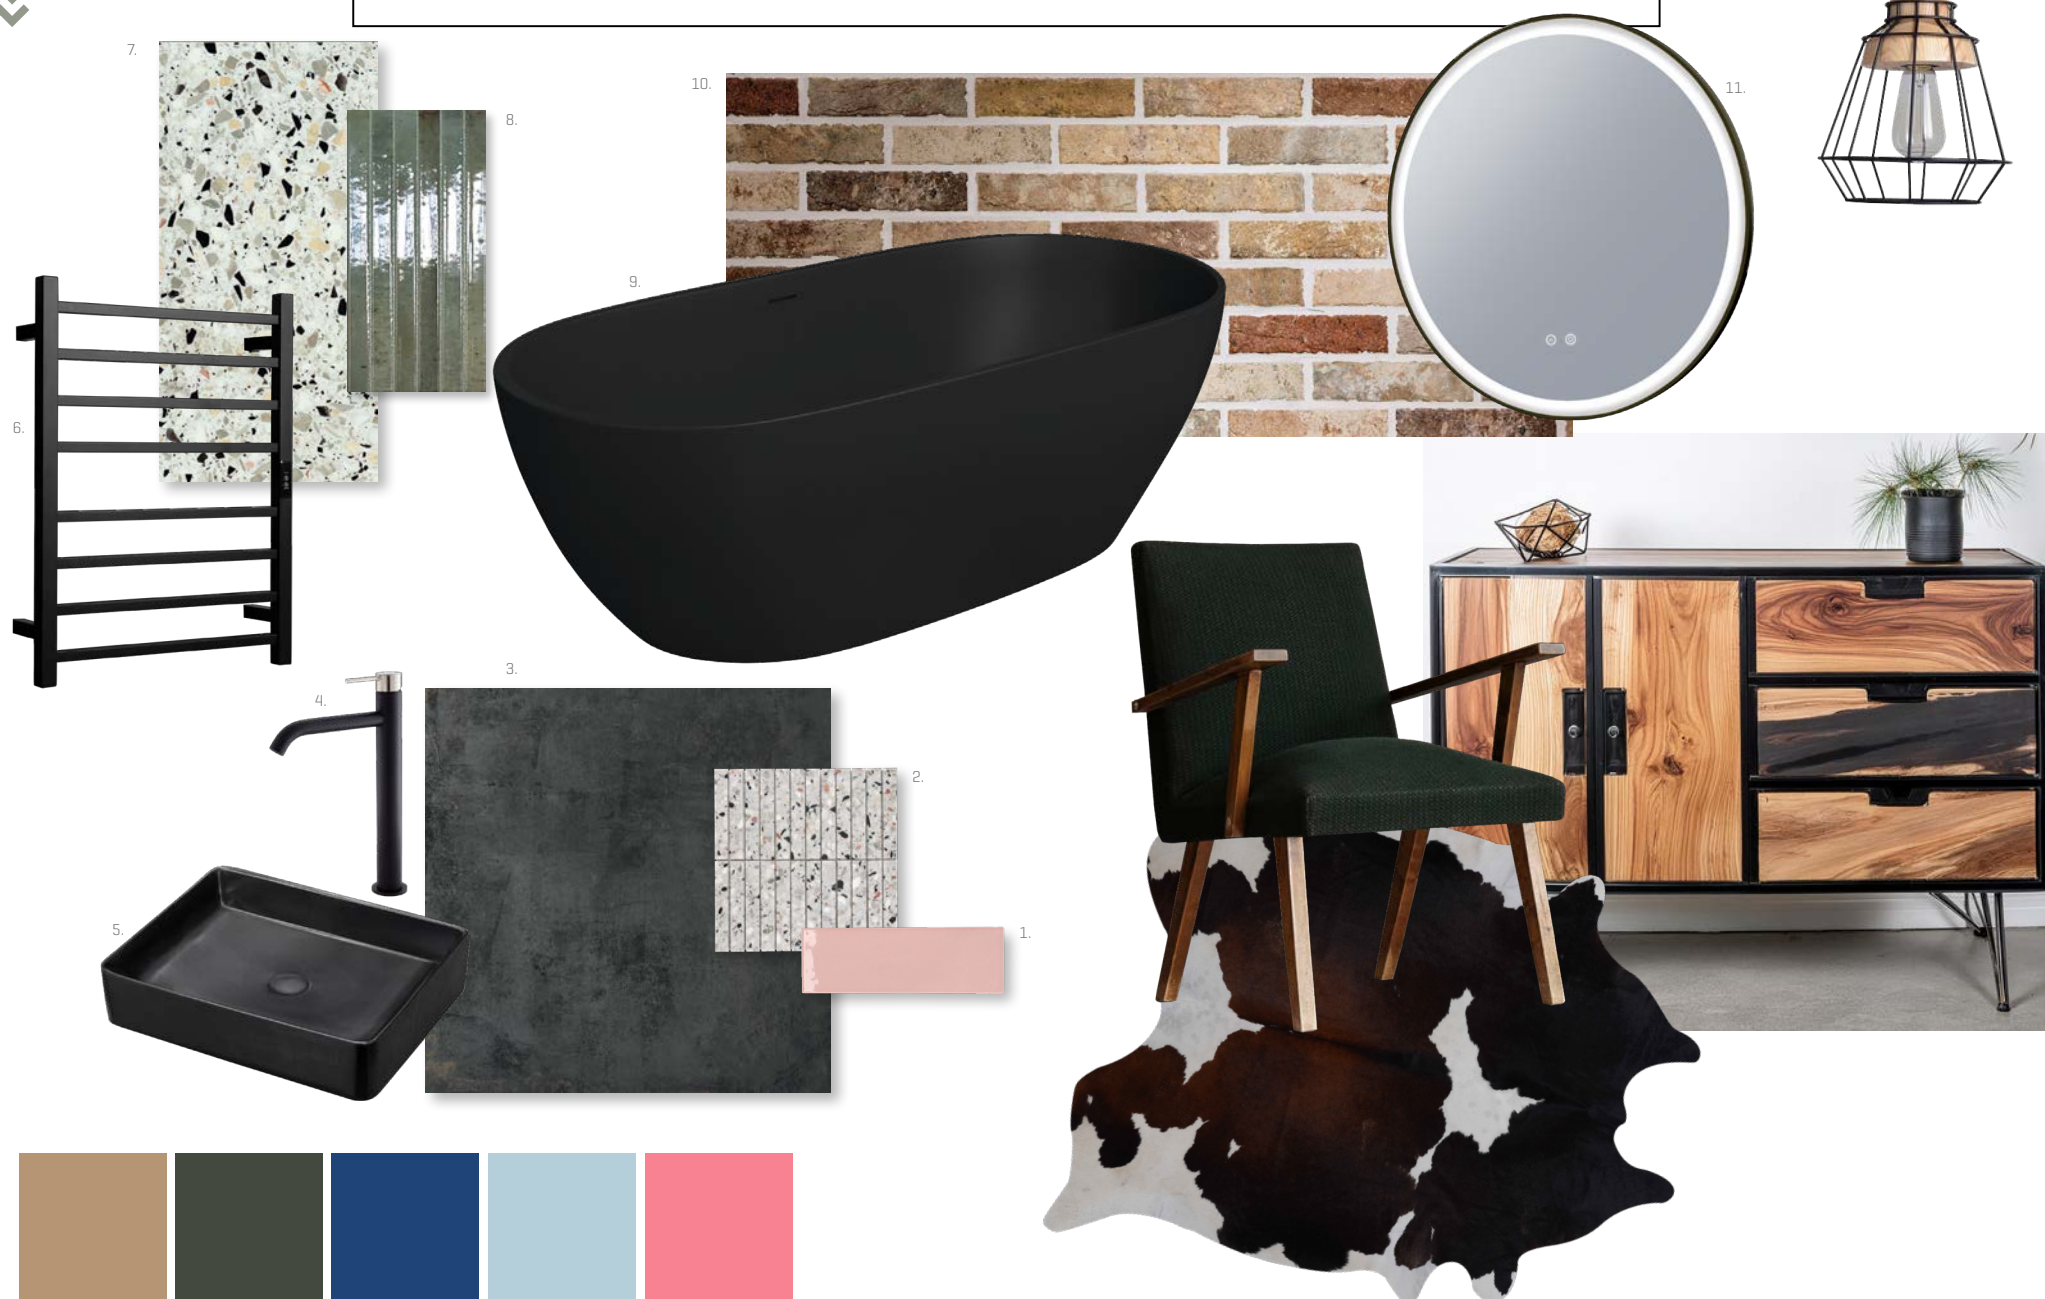

- ✓ Select metallic, steel or cement look splash-backs
- ✓ Use metallic light fixtures
- ✓ Go for white tiles with a contrasting grout

FINISHING TOUCHES

- ✓ Leather couches look great with this look!

The Stylists

Vintage

Everything that is old is made new again! When grandma's cherished furniture becomes a prized piece, bringing all its personality and character with it. Carefully curated alongside new pieces using technologies to give the vintage look, you're on a winner.

Don't ever feel like everything has to match, that's the fun of the Vintage look, but colour is the element that can bring everything together, use trending tones from your era of choice, this allows you to personalise the look.

Living Room Style Checklist

LAYOUT

- ✓ Living rooms are known for their functional layout for conversational entertaining
- ✓ Ensure your layout is well considered with adequate, functional furniture that's easy to access

DECOR ACCENTS

- ✓ Go all in with mixing colours and shapes. Vintage design is not to be toned down. Go all in and have fun. Your living room will be uniquely yours - embrace it!
- ✓ There's no limit to accessories when designing a vintage living room
- ✓ Include throw rugs, fun furniture, and mis-matched cushions
- ✓ Get textural with your design accents. From shaggy rugs, smooth vinyl, to velvet - they're all great vintage textures that should be included in your living room
- ✓ Go bold with your artwork. Abstract art, pop art or photography from yesteryear

FURNITURE

- ✓ Vintage pieces were well-designed, sturdy and functional. Ensure you make the right choices and invest in timber furniture that's as functional as it is beautiful
- ✓ Opt for a couple of statement pieces such as a sideboard or velvet occasional chairs
- ✓ Choose an elongated sofa on timber legs. Don't be afraid to choose a sofa in colour and make it the focal point of your living room

WINDOW TREATMENT

- ✓ Choose window treatments that are subtle or have fun and opt for a blind in a colour or pattern
- ✓ If you want to keep your window treatment simple, choose for floor to ceiling curtains in a light colour

LIGHTING

- ✓ Vintage lighting lends itself to floor and table lamps, but consider a gorgeous glass pendant or art deco chandelier with brass accents. Don't forget functionality when lighting your living room.

Wet Area Style Checklist

BATHROOMS

- ✓ Pick a feature tile with a pattern that has caught your eye and pair it with a contrasting subway tile, or stick with one bold tile choice
- ✓ Dark cabinetry sits beautifully on a white wall with feature handles – chrome looks best
- ✓ White tiles with a dark grout gives opportunity to highlight tiles in herringbone, brickbond or stacked patterns
- ✓ Use plenty of greenery

MAIN FLOOR TILE

- ✓ Choose a classic stone, marble or terrazzo to suit your best vintage hues
- ✓ Consider a timber plank tile with plenty of aged character featuring all the knots and woodgrain

KITCHENS

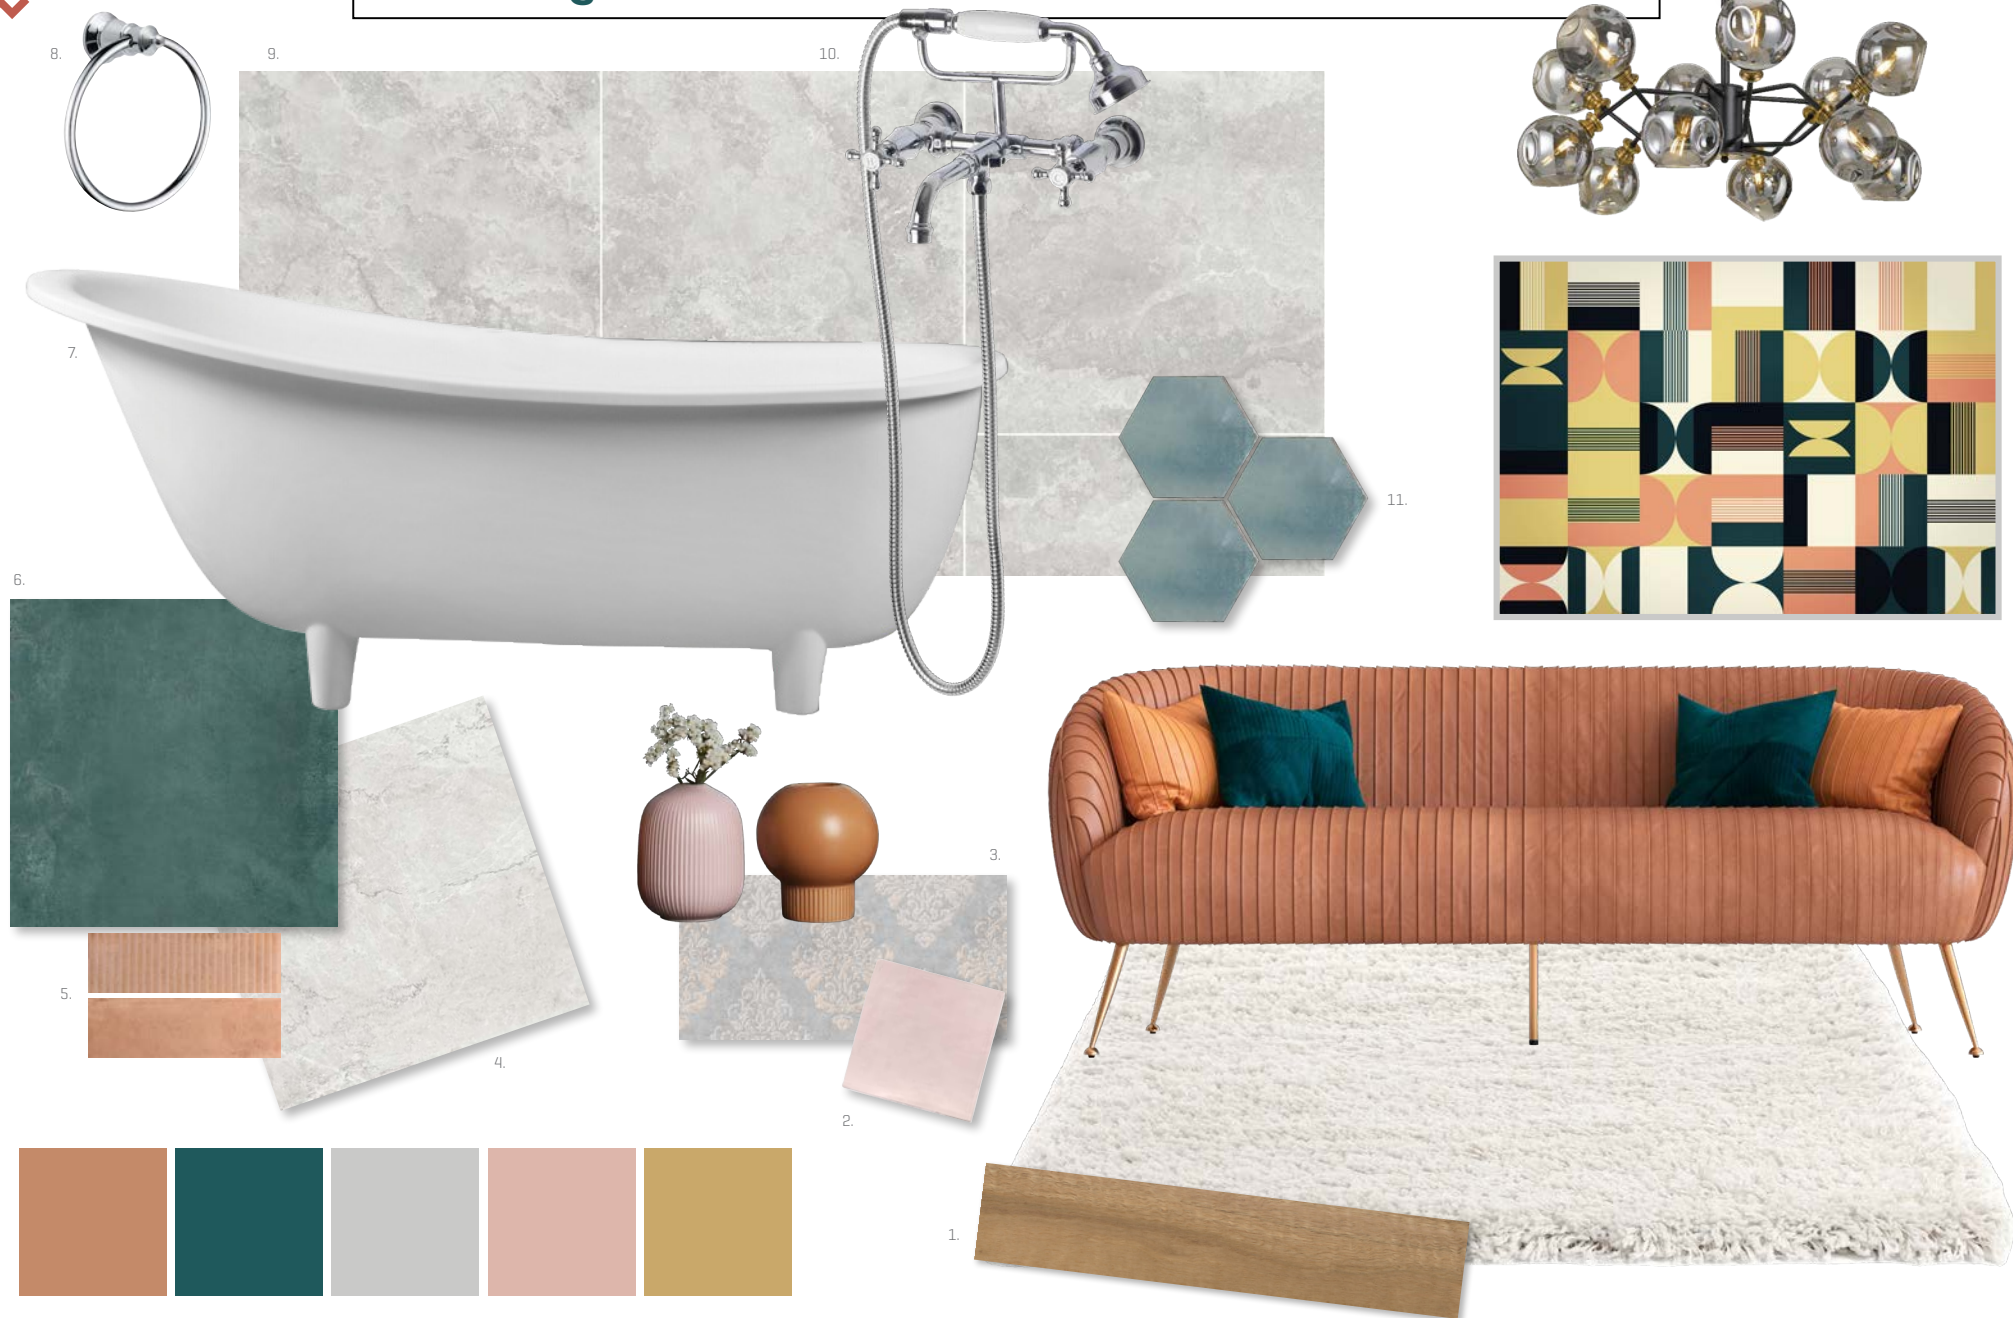

- ✓ Be bold with a colorful splashback, or motif encaustic look tile
- ✓ Cabinetry with a profile or Vintage inspired knobs adds character along with a mosaic splashback (think shapes)

FINISHING TOUCHES

- ✓ Use bright and classic prints and find some towels to colour match
- ✓ Find classic furniture in sexy tones
- ✓ Contrast these deep tones with neutral pieces.

DIY TILING MADE EASY

Doing it yourself? Head on over to tile.com.au and click on our **'DIY Advice'** section. Our resident DIY specialists, The Block's Kyal & Kara, will introduce you to all the fundamentals of tiling and show you the tricks to do a great job.

There's a host of quick reference videos to follow, plus we've got advice for some of those trickier renos.

Don't forget, if you're a bit unsure, get a professional in to help.

NEED A TILER?

There's some tiling jobs you can do yourself, and there's some best left to a professional.

Check out our list of top-notch tilers at tile.com.au. Click on 'Browse Services' and 'Find a Tiler'.

Just tell us a bit about the job you've got going - is it a big or small job, or a reno using special products like marble - and we'll try and match you up with a specialist.

We always recommend you check their credentials.

Here's what to get:

- The tiler's qualifications and experience as it relates to your job (even ask to visit a job they're doing)
- A written quote (get two or three to compare)
- Insurance details and any guarantees they offer for workmanship, quotes, and completing the job on time
- Check out if they clean up after the job - it's a little dusty!

Don't forget our exclusive visualiser **BeVisual Live**.

No need to imagine what your tile selections will look like; take a pic of your main floor area, upload it and start designing!

Find it instore or online at tile.com.au

SUPER TIPS FOR Sparkling walls and floors

Tiles are a perfect choice for floors and walls.

They're affordable, low maintenance and durable, and great for people with health conditions like asthma. Under tile heating makes them suitable no matter where you live.

Contemporary decor puts tiles at the centre of design and not just for traditional areas such as bathrooms and kitchens.

Tiles are now part of an entire home design; they're being used on walls to create art gallery inspired features, and across living areas into the outdoors to create a wonderful feel of space.

It's easy to keep tiles looking great, just follow these tips.

GENERAL CLEANING

- Sweep, or better still, vacuum tiles regularly so dirt doesn't build up
- Clean tiles with mild detergent or household cleaner (no acid or alkaline), or go natural by mixing vinegar and warm water
- Avoid abrasive cleaners (powders and gritty cream) as they can scratch and make tiles harder to clean
- Remove a stubborn spot by gently scrubbing with a paste of bicarbonate of soda and water

PREVENT DAMAGE

Avoid scratches by using gliders under furniture and good mats at the front door to keep out grit. Ditch the high heels if your floors are high gloss.

Just one more. Always buy an extra box of tiles in case you need some spares in the future.
